

Università degli Studi di Salerno
Dipartimento di Informatica
Corso di Interazione Uomo - Macchina

Lezione del 24/04/2025

Andrea Cantone

Orario di ricevimento:

- Martedì, ore 16:30-17:30
- Mercoledì, ore 10:00-12:00

Inviare una mail il giorno prima. E' possibile concordare ricevimento un giorno e orario diverso.

Lab HCI-UsE (Lab 8, edificio F2, piano -1)

Figma

The background is a light gray color. It features several abstract, organic shapes in orange and teal. In the top left, there is an orange shape. In the top right, there is a large orange shape. In the bottom left, there is a teal shape. In the bottom center, there is an orange shape. In the bottom right, there is a teal shape.

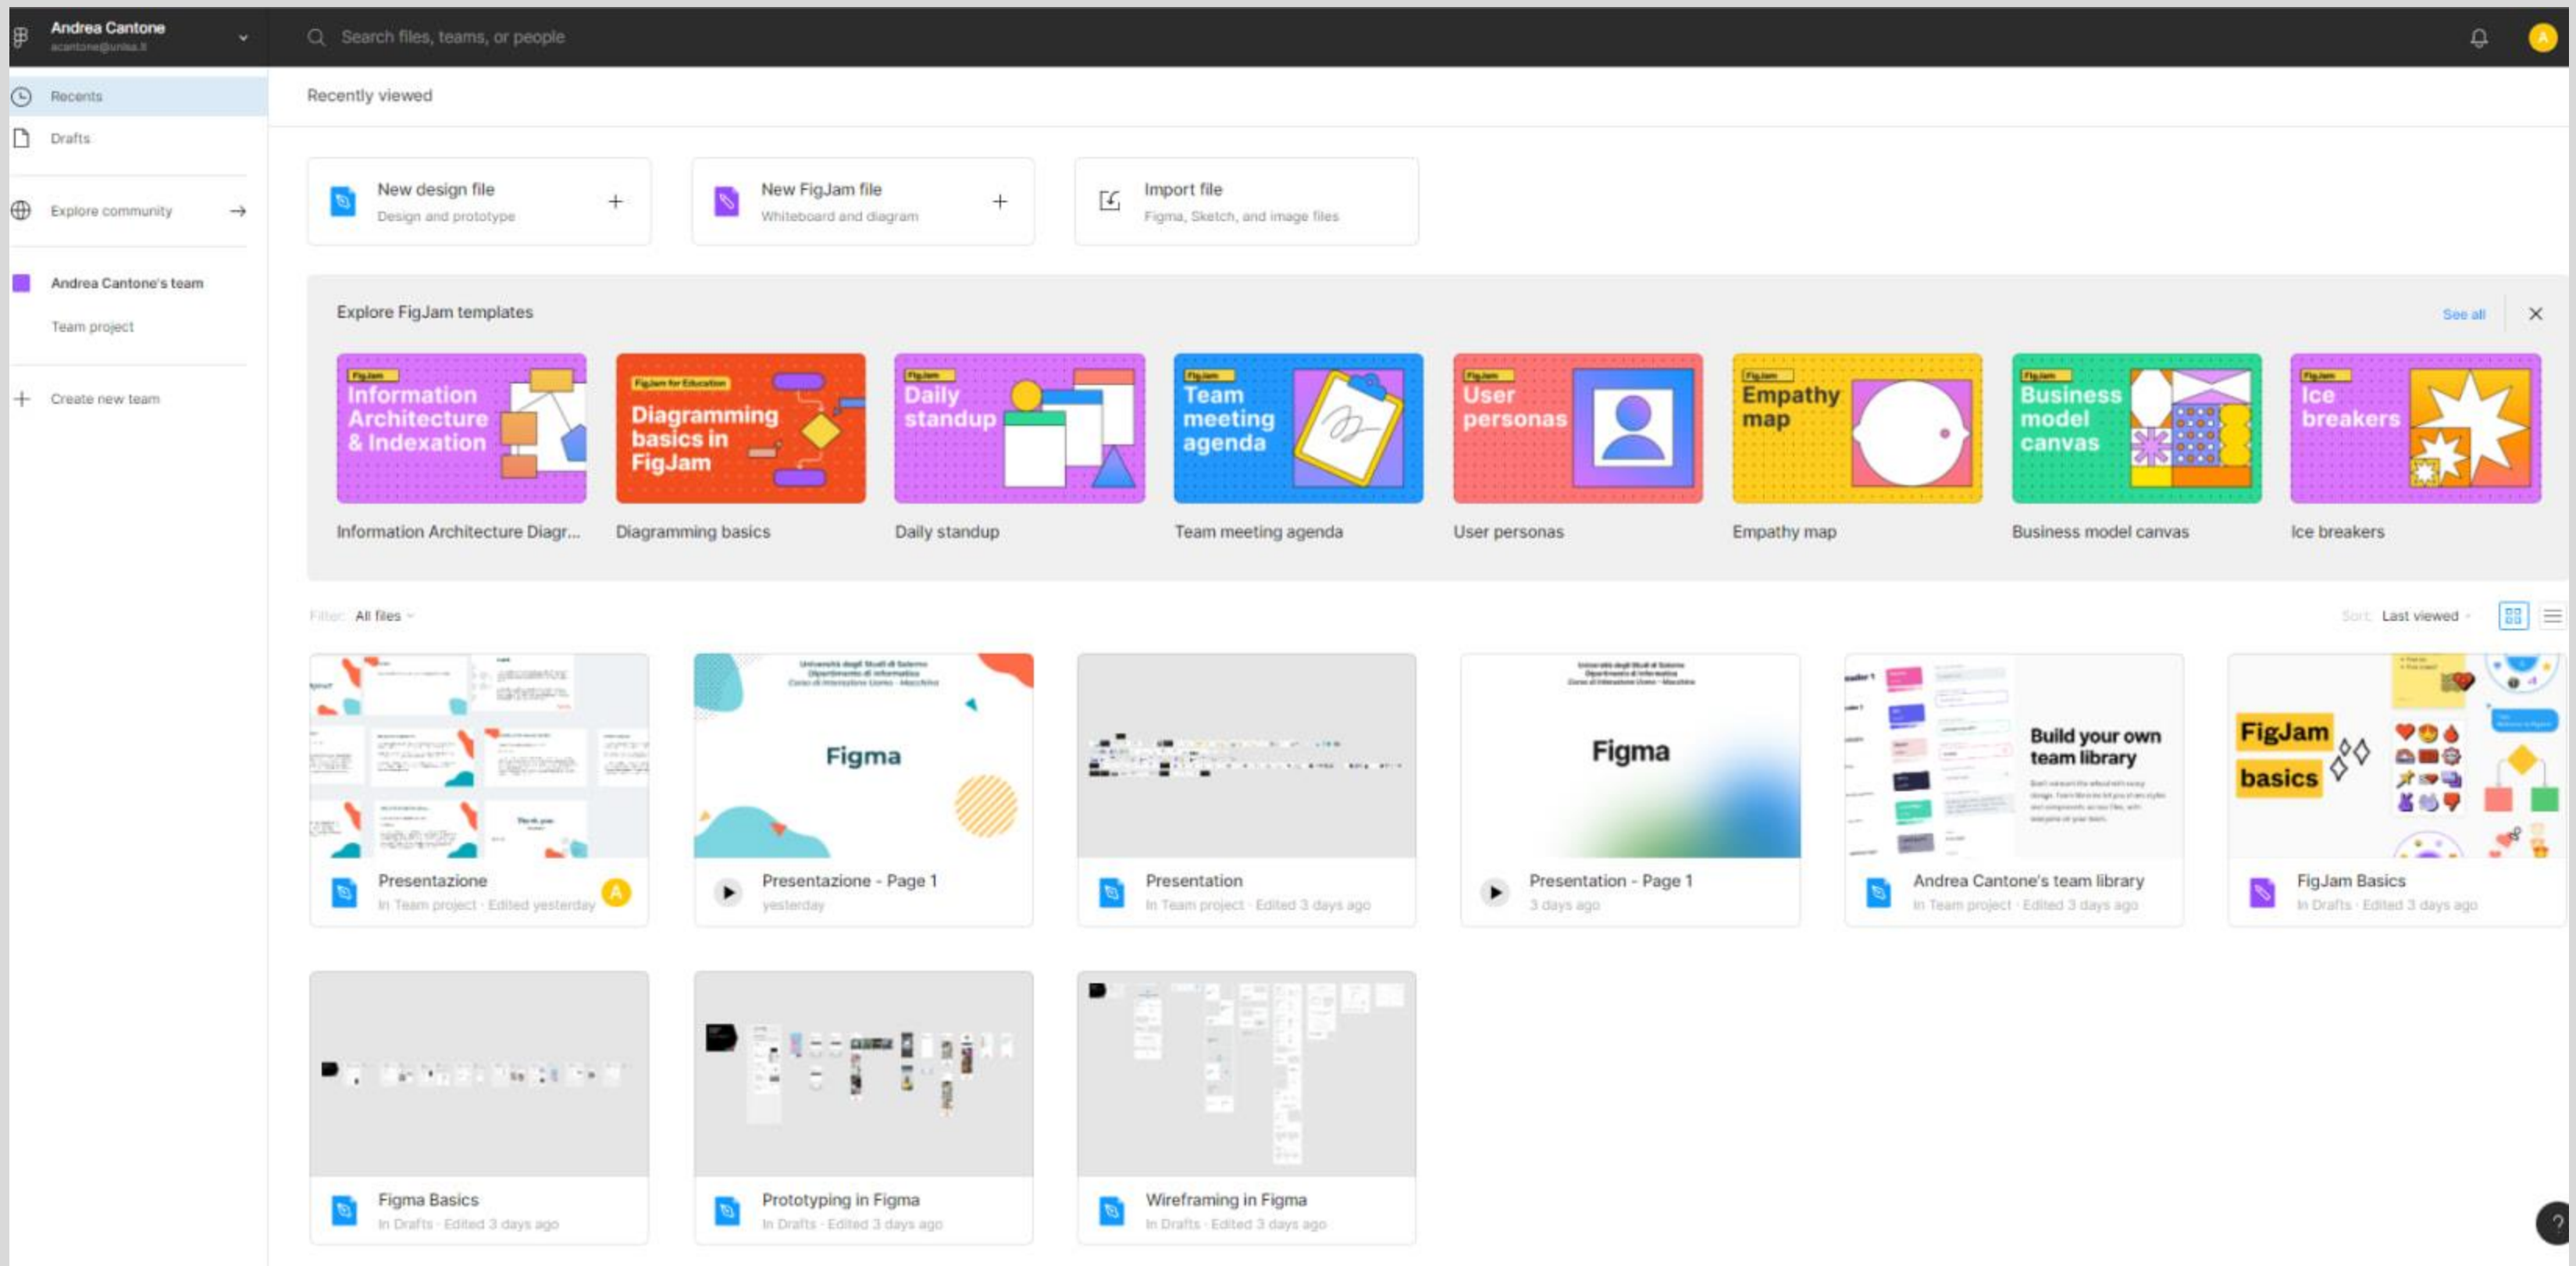

Cos'è Figma?

Figma

Figma è uno strumento di user interface design di tipo collaborativo, che permette di far comunicare più persone all'interno dello stesso progetto. Fino a qualche anno fa, il concetto di collaborazione all'interno di questi tool era ristretto alla possibilità di commentare i design e poco più.

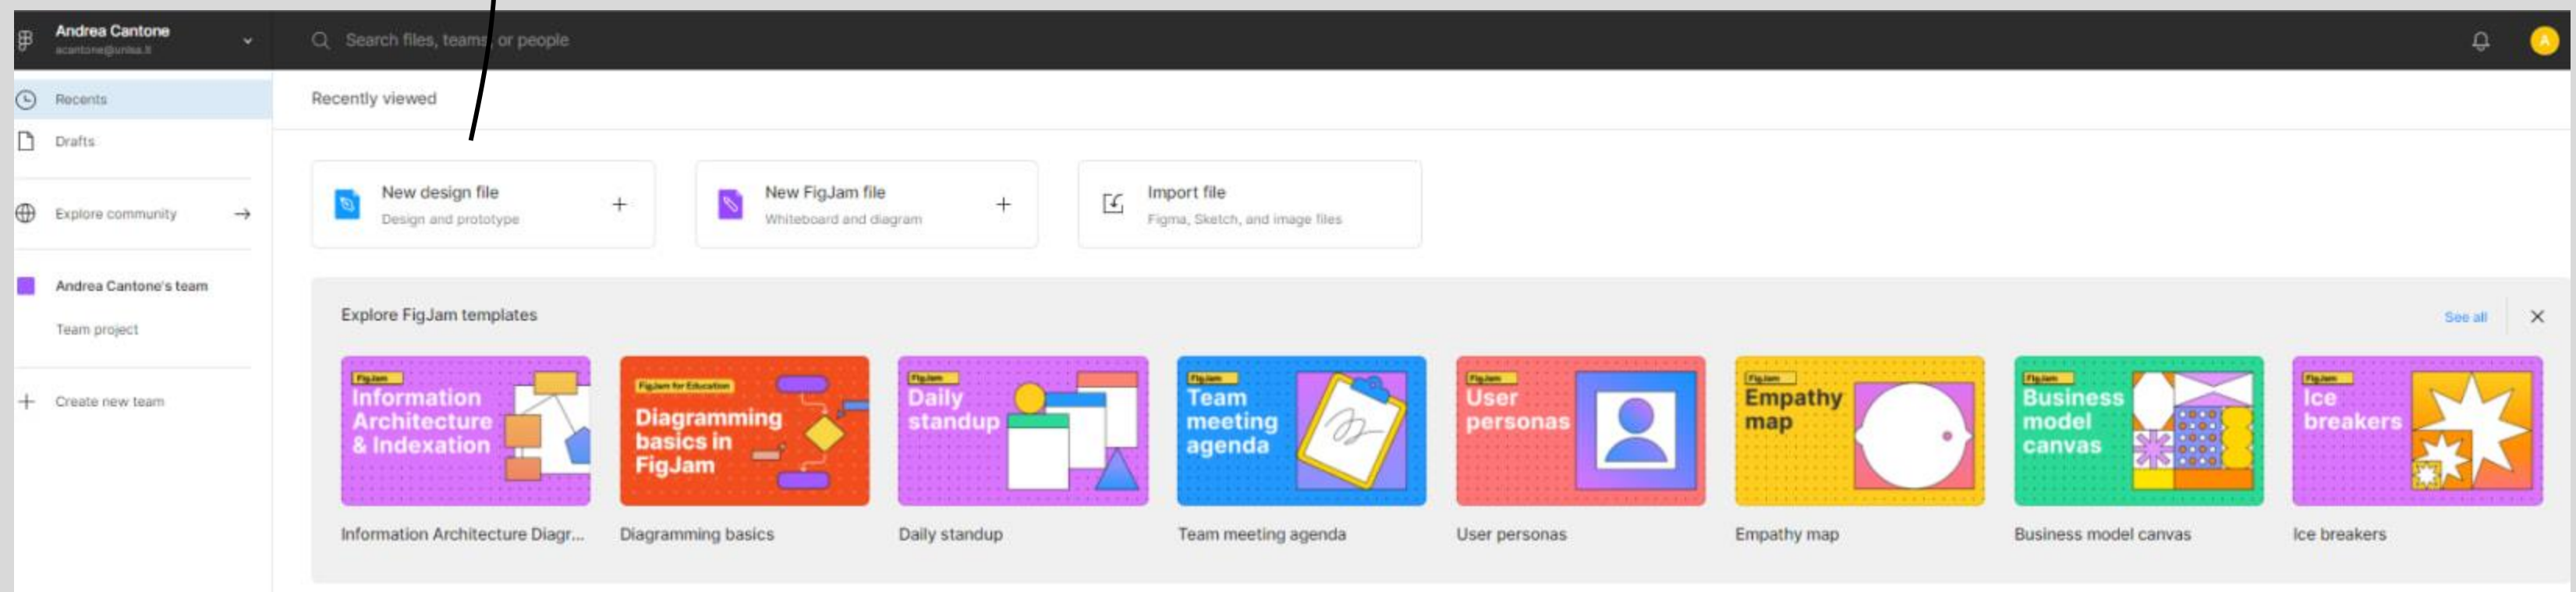

L'interfaccia

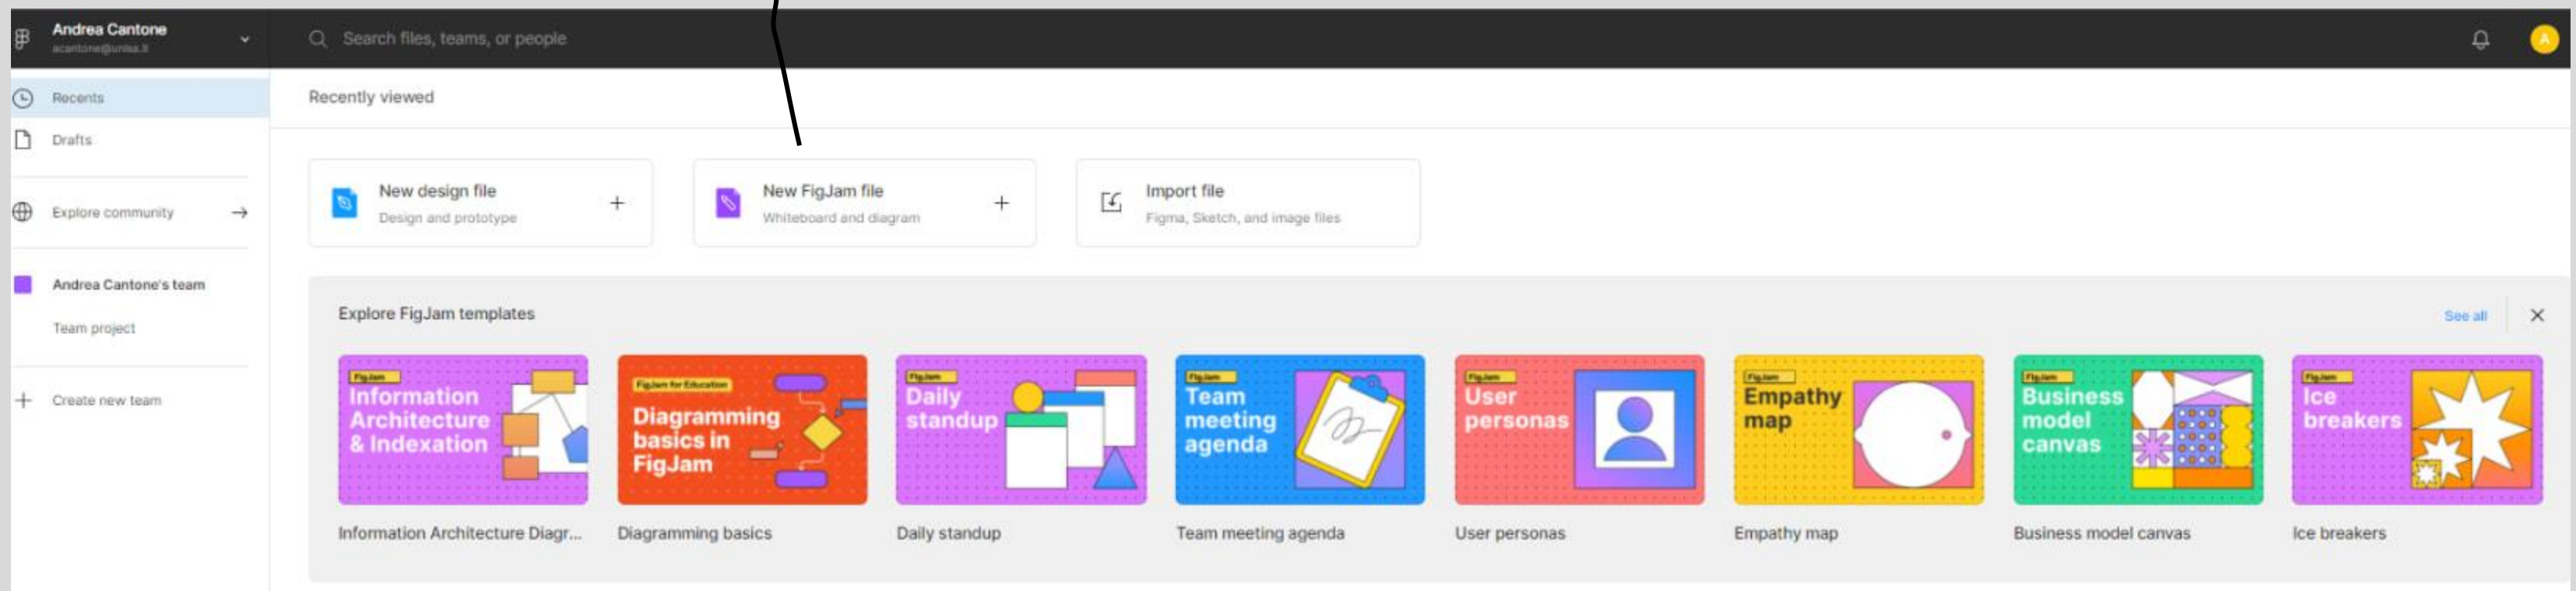

L'interfaccia

Design file:
design and prototype

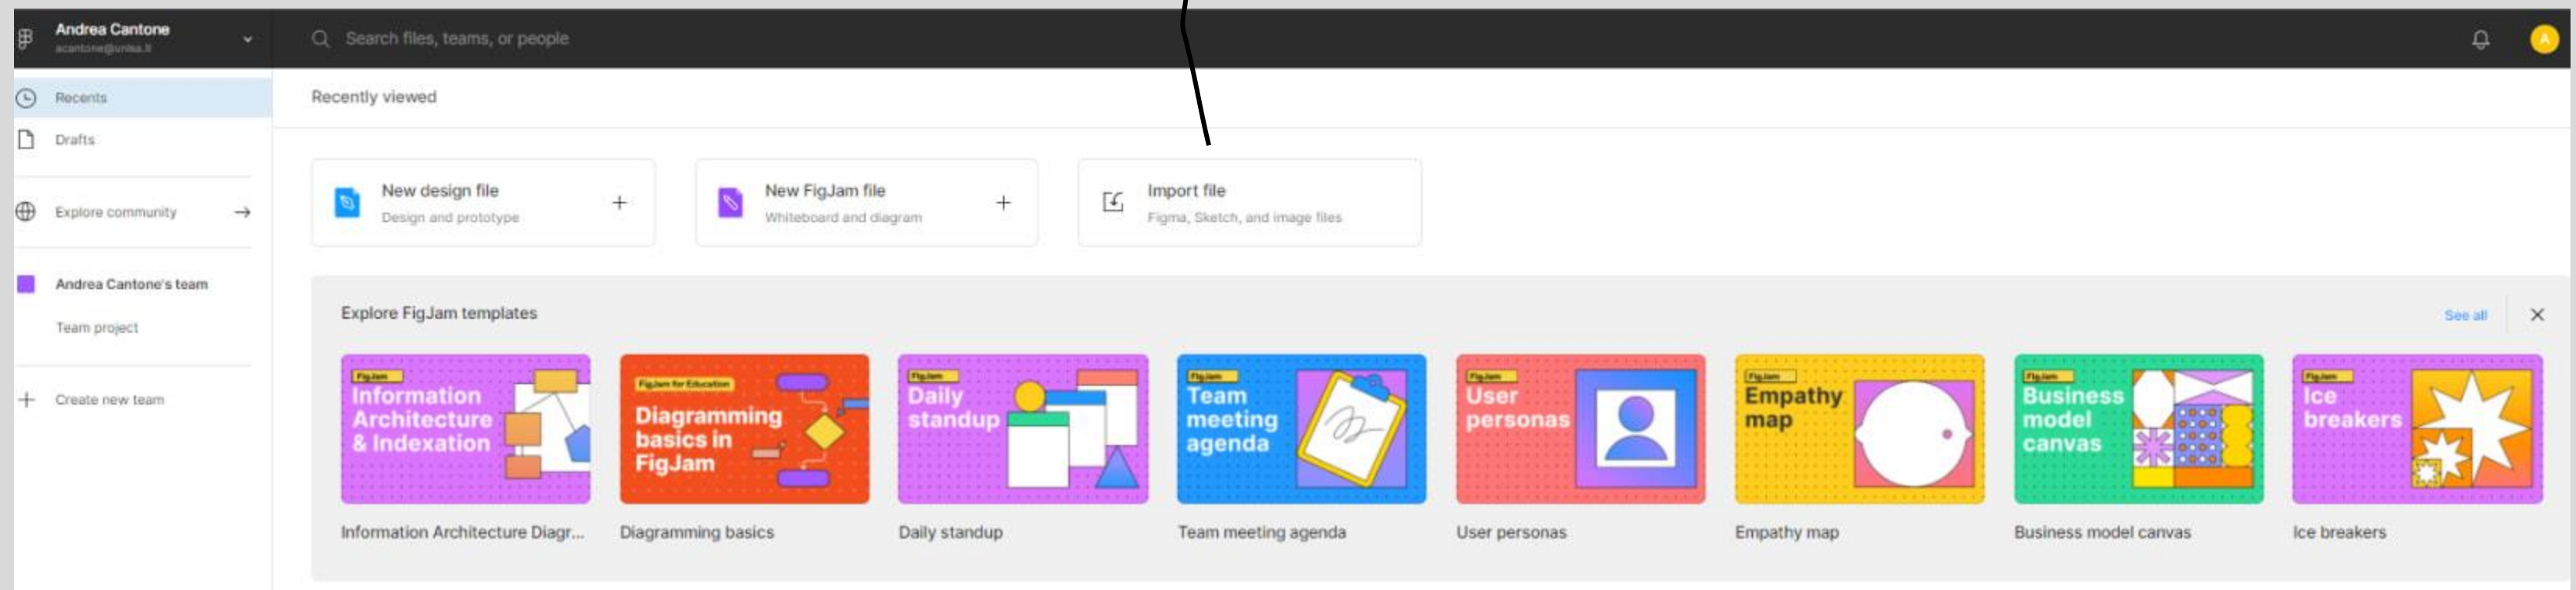

L'interfaccia

Quick tips

QUICK TIPS

Toolbar

It's at the bottom of your screen, with eraser, lasso, and anything you need.

Move and Zoom

Hold the Spacebar, use the hand tool to pan around. Zoom controls are in the top right corner.

Work with your team

FigJam's better with others. Click the Share button above to invite your team.

HELPFUL TOOLS

Stickers

Press "S" to quickly add a sticky to the canvas.

Ellipses

Press "O" to quickly place an ellipse onto the canvas. Other shapes can be selected from the toolbar or dragged from the shape menu.

Stickers

Quickly access fun stickers to add to your team's ideas. If you have a custom sticker pack in FigJam, you can also add those here. Press stickers and components in the toolbar.

User Persona: Paolo

Use this user persona template to create a profile on your ideal customer and visualize how your product will work for them.

Get Started

1. Fill Out User Persona Card(s)

Paolo Rossi

Age: 24

Occupation: Studente

Location: Napoli

Education: Laurea Triennale in Informatica

Status: Celibe

Bio

Paolo ha conseguito la Laurea Triennale in Informatica con votazione 105/110. Conosce l'inglese e lo spagnolo; al 3° anno della triennale ha svolto l' Erasmus in Spagna. E' appassionato di tecnologia sin da bambino.

Personality

Messy	Organized
Independent	Team player

2. More about this persona

Interests

- IT
- Books
- Social Networks
- Mobile Apps

Brands & Influences

- Google
- Apple
- Amazon
- Microsoft

Goals

- Velocità nell'acquisto del biglietto al terminal bus
- Canali diversi per effettuare l'acquisto di un biglietto

Needs & Expectations

- Acquisto facilitato di un biglietto per il pullman

Motivations

- Ama la puntualità
- Una buona routine quotidiana lo aiuta a sentirsi meglio

Pain Points / Frustrations

- Lunghe attese per l'acquisto di un biglietto per il bus
- Stress per la possibilità di perdere il bus per rientrare a casa

SCENARIO:

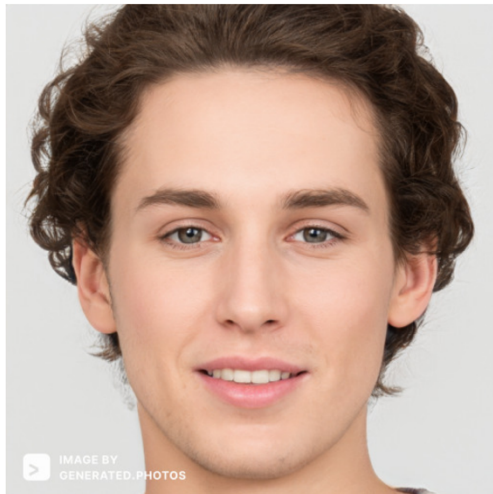

Paolo, ogni giorno, pochi minuti prima della partenza del pullman, si reca al terminal bus dell'Università, dove dovrà acquistare il biglietto per poter viaggiare. Le due biglietterie presenti sono sempre affollate, poiché il numero di studenti e lavoratori che viaggiano con tali mezzi è elevato. Spesso rischia di perdere il pullman e di dover aspettare per molto tempo il prossimo. Egli preferirebbe che ci fossero macchinette automatiche presso cui acquistare il titolo di viaggio o avere la possibilità di acquistarlo utilizzando il proprio dispositivo mobile, mediante un'applicazione.

- *subtract selection:* effettua la sottrazione tra i due elementi
- *intersect selection:* effettua l'intersezione tra i due elementi
- *exclude selection:* esclude la parte che i due elementi hanno in comune

Forme e selezioni

Forme e selezioni

► **Use as a mask:** prende la figura che è sotto l'altra e la trasforma in una maschera

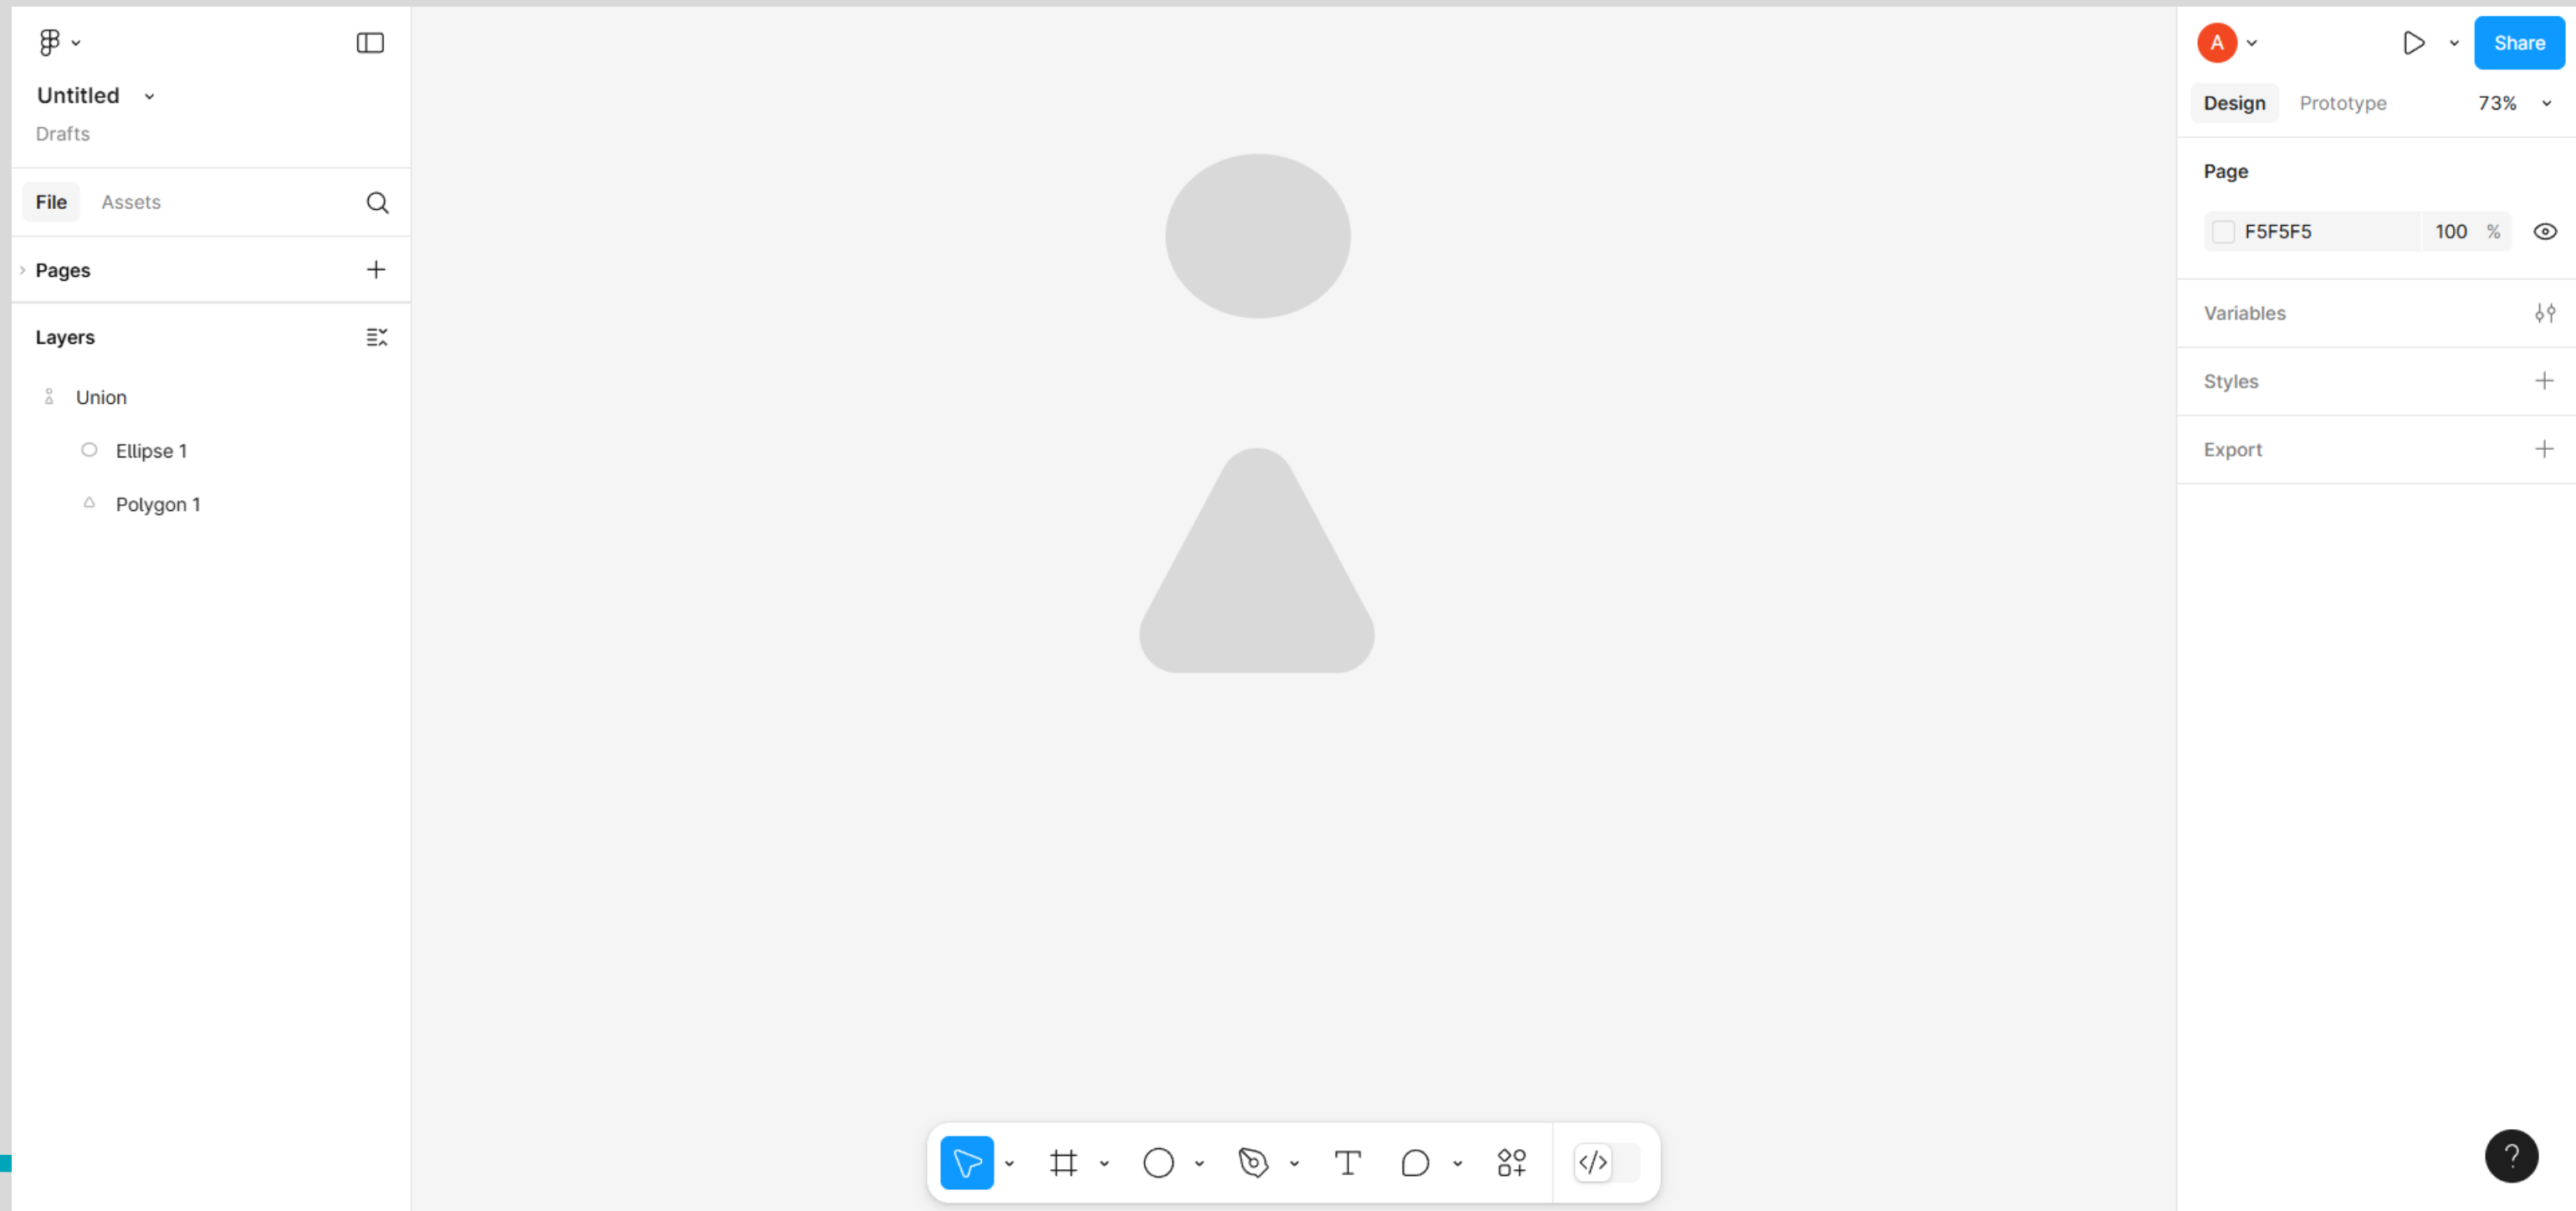

► **Selection:** si distingue in

- *union selection:* unifica i due elementi
- *subtract selection:* effettua la sottrazione tra i due elementi
- *intersect selection:* effettua l'intersezione tra i due elementi
- *exclude selection:* esclude la parte che i due elementi hanno in comune

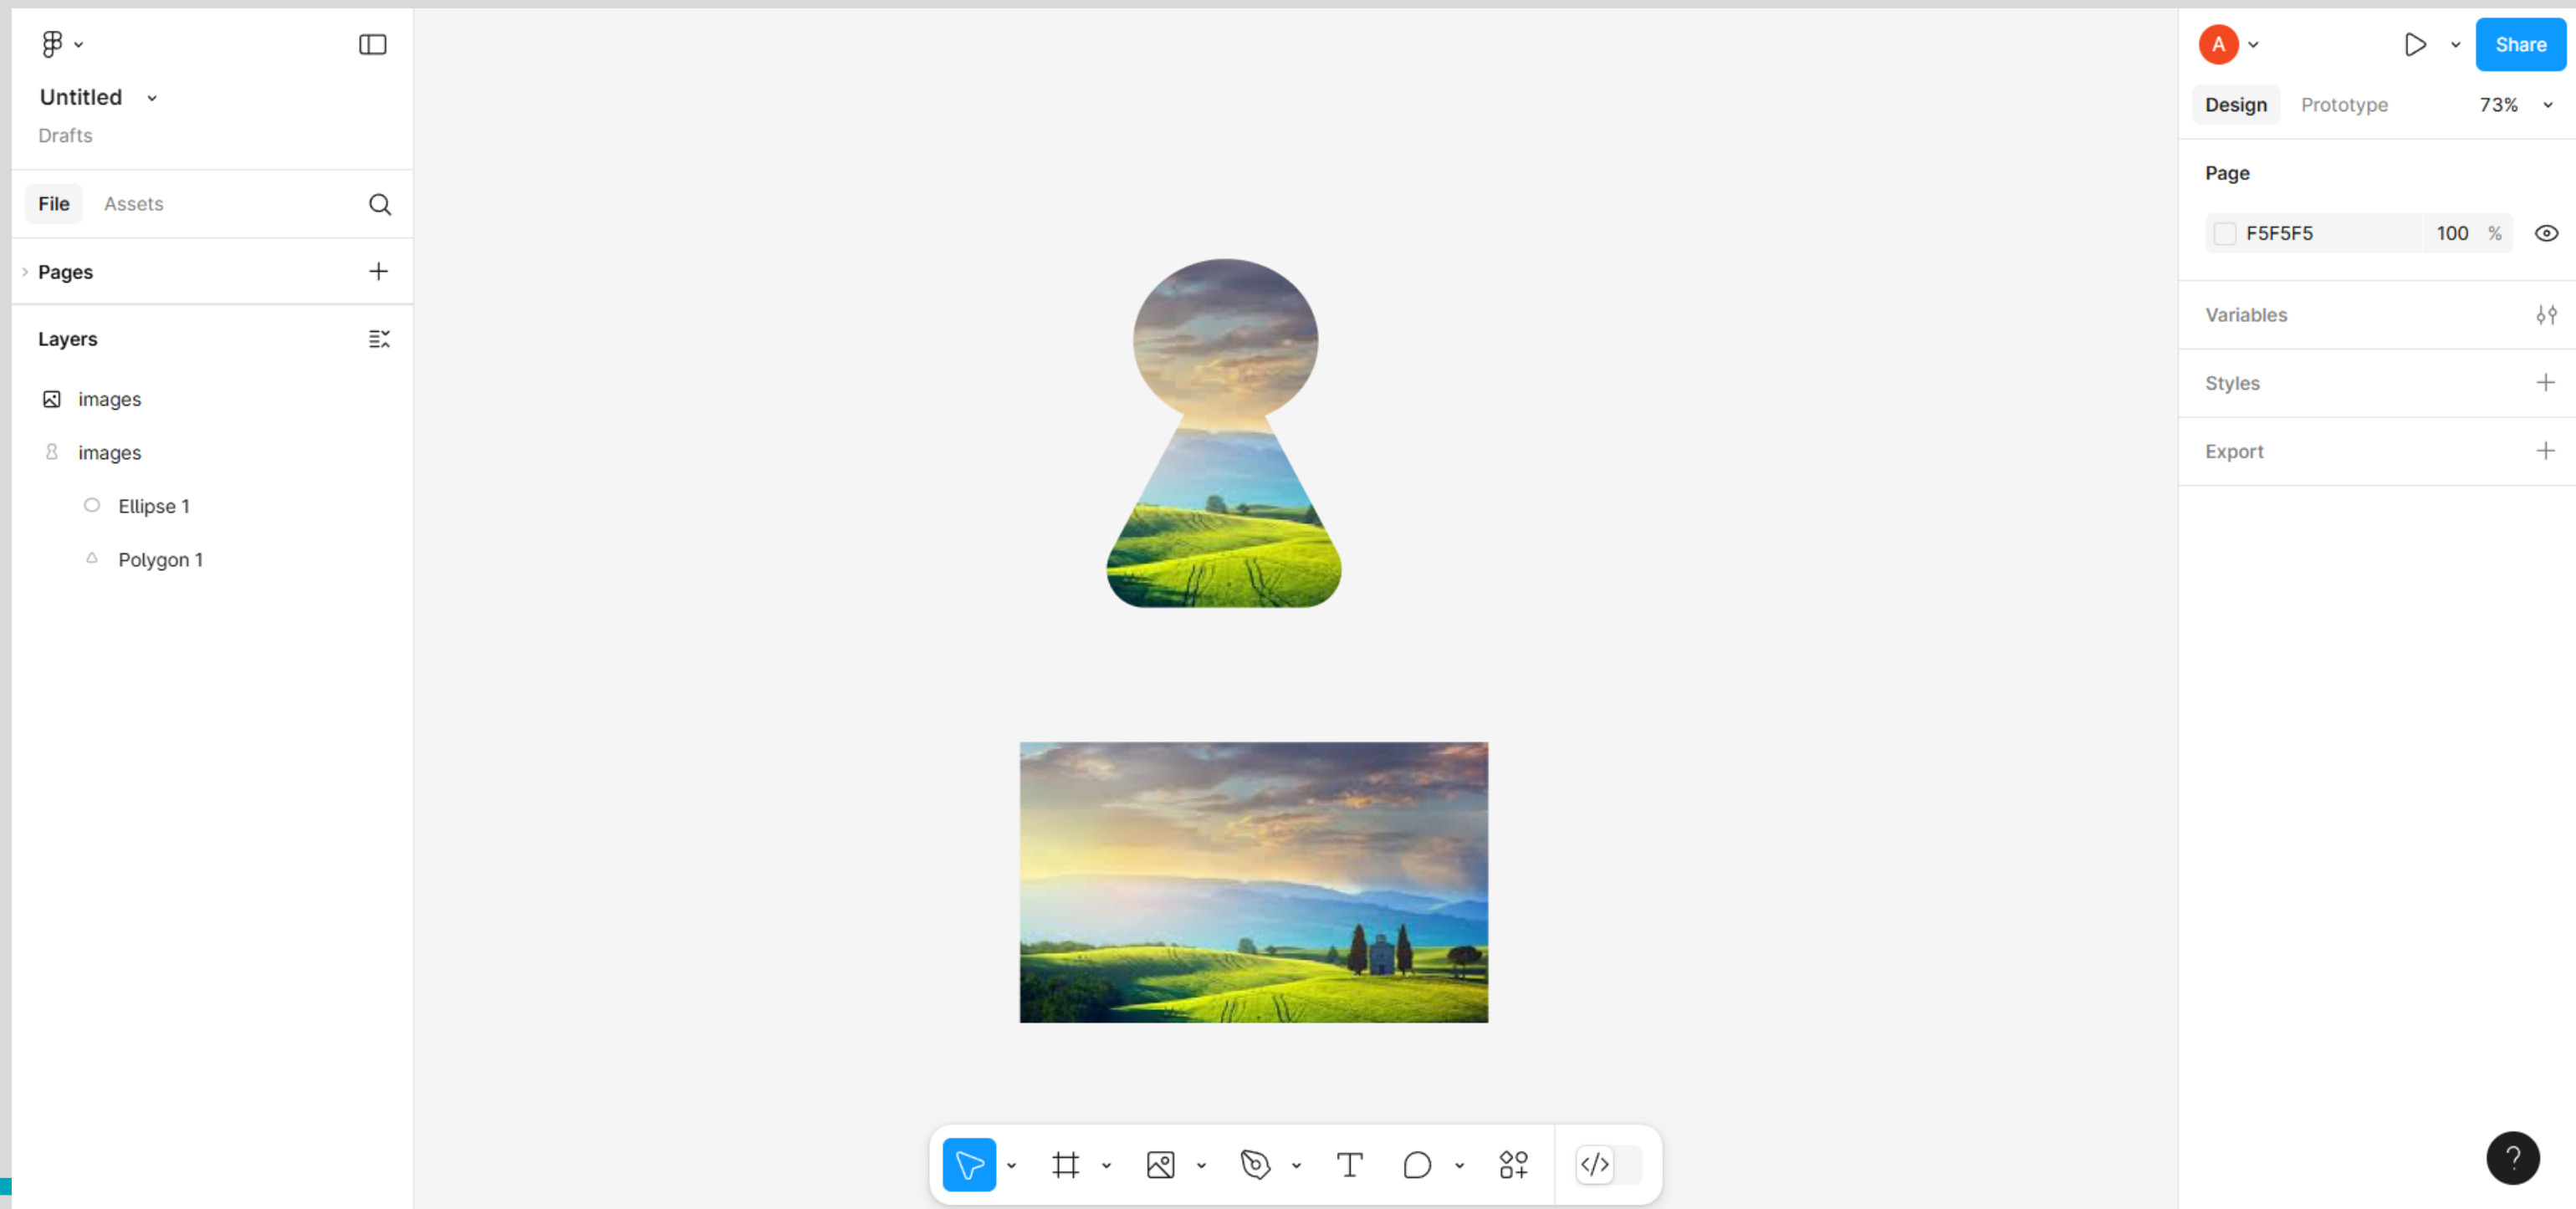

Le due figure restano indipendenti qualunque sia la selezione scelta.

In qualsiasi momento, si ha la possibilità di modificare e/o spostare una singola forma.

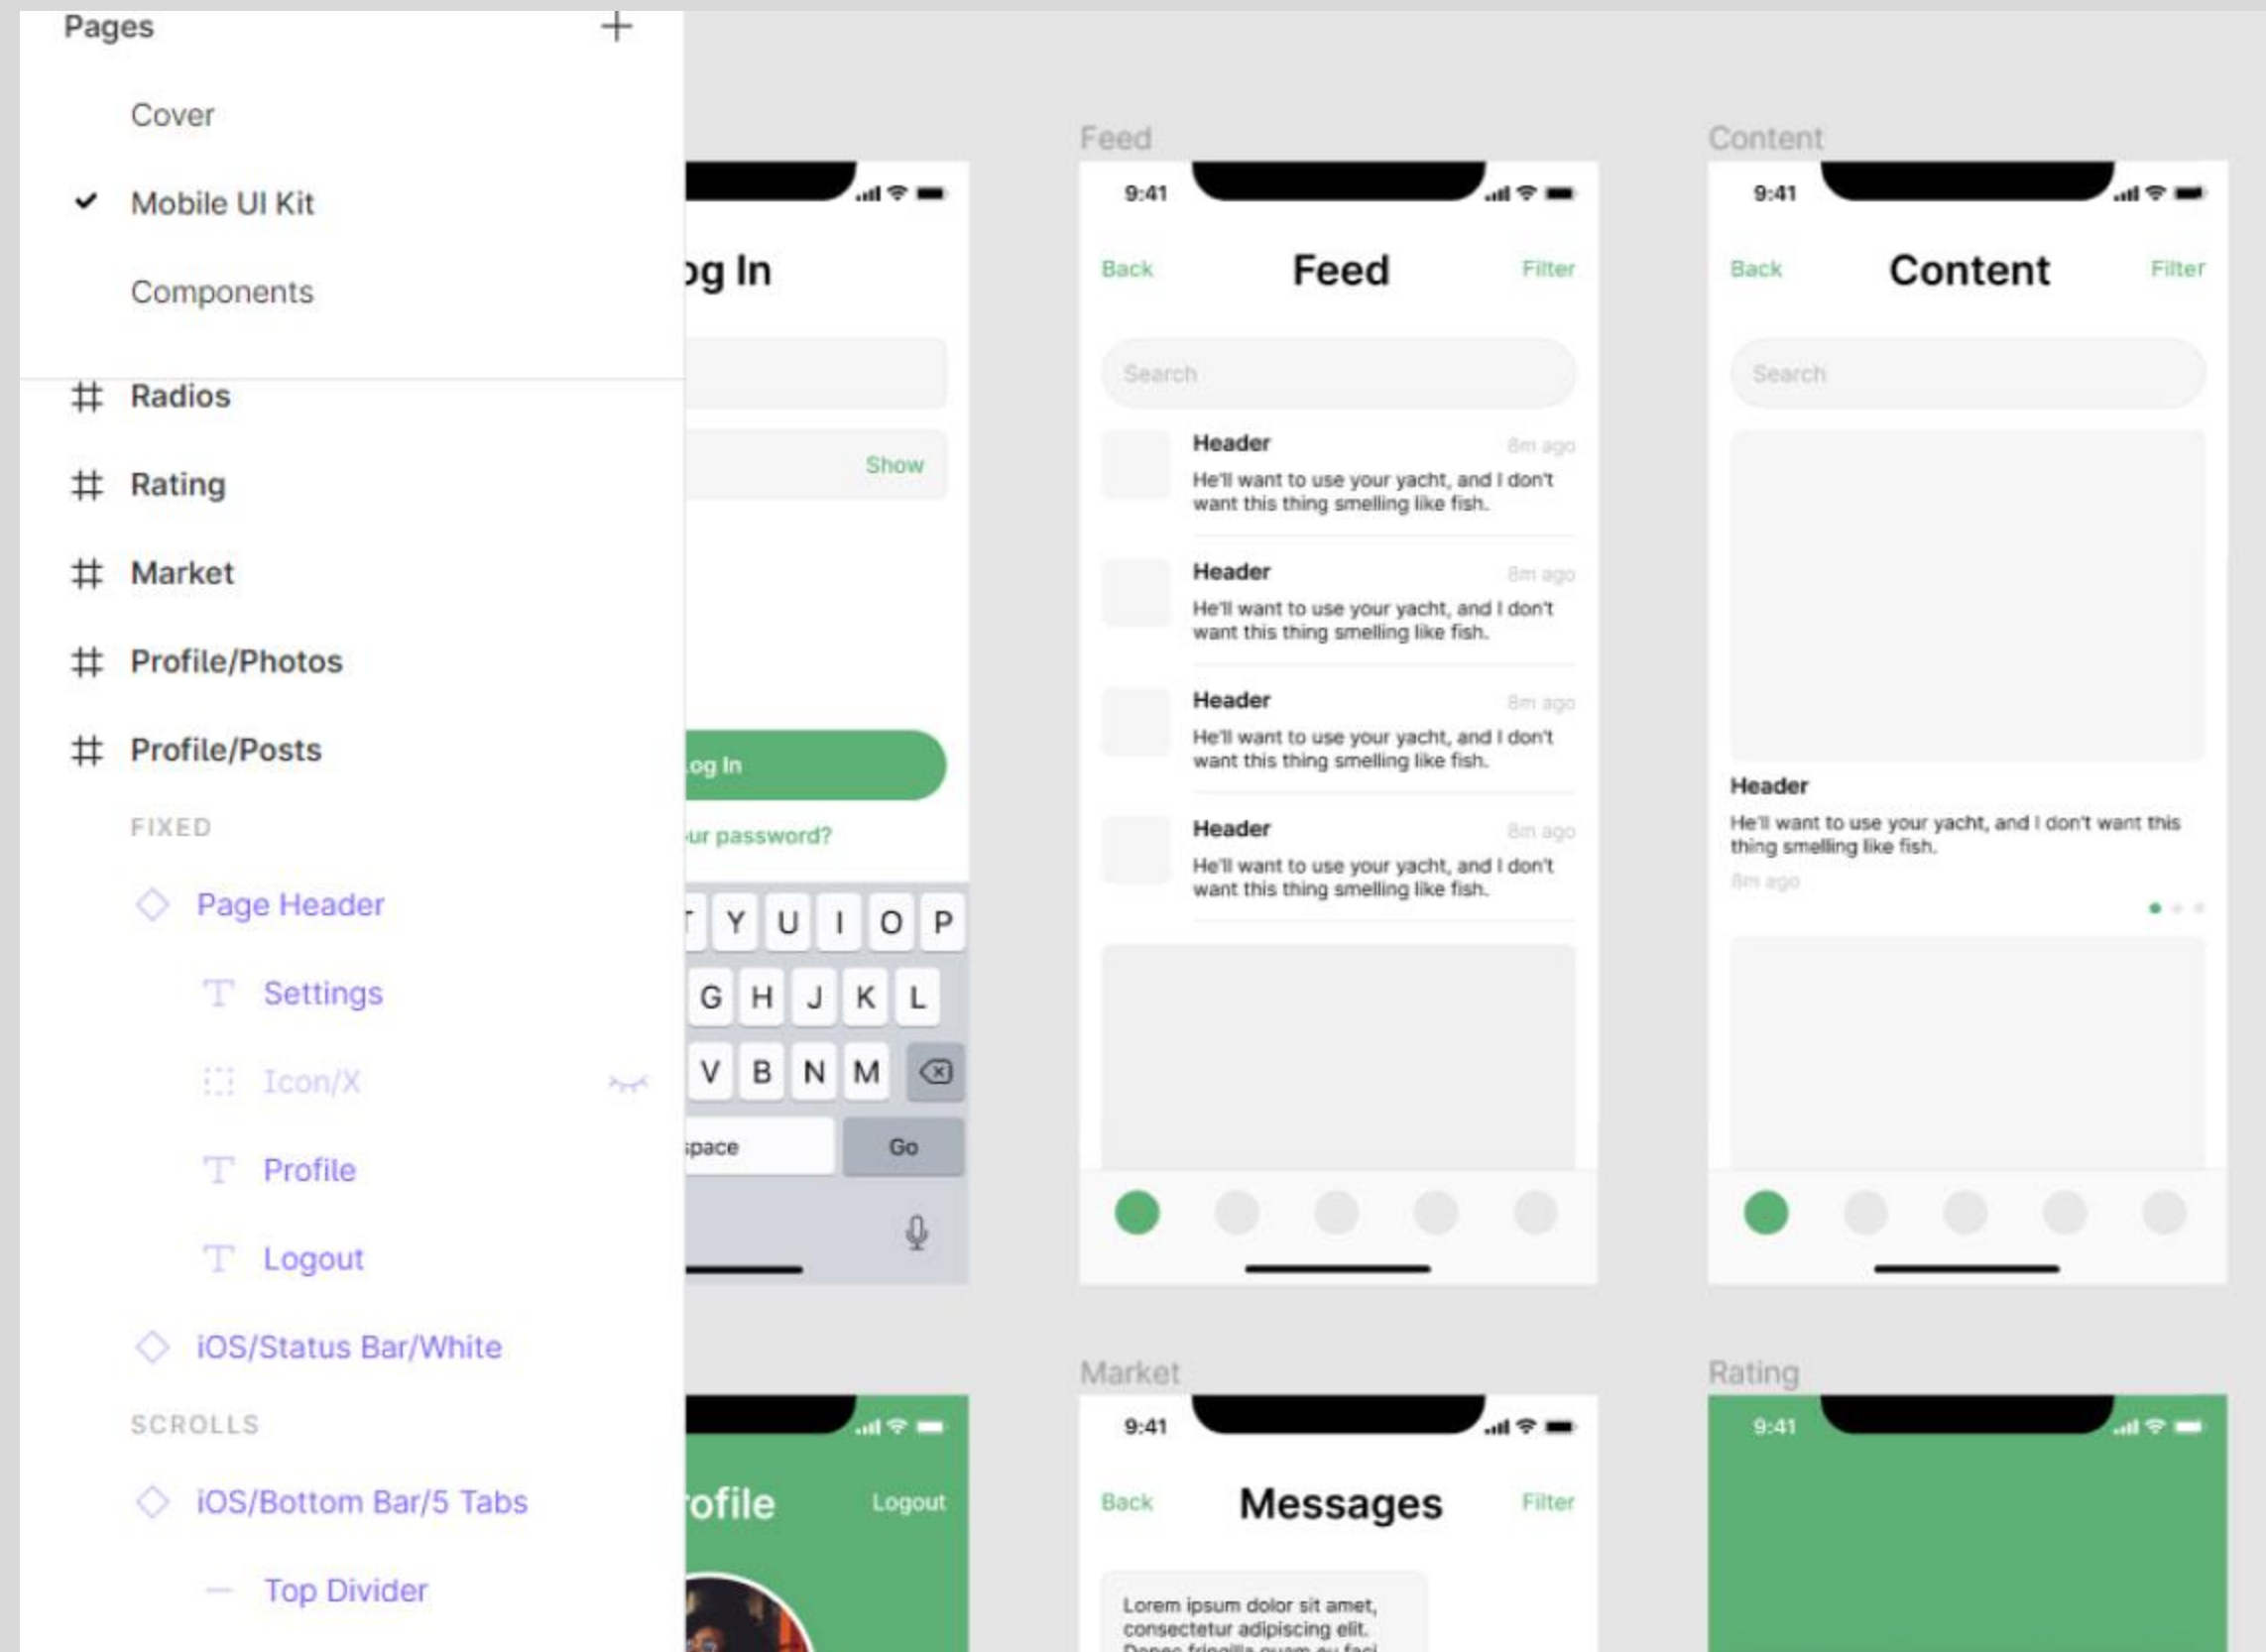

Forme e selezioni

Forme e selezioni

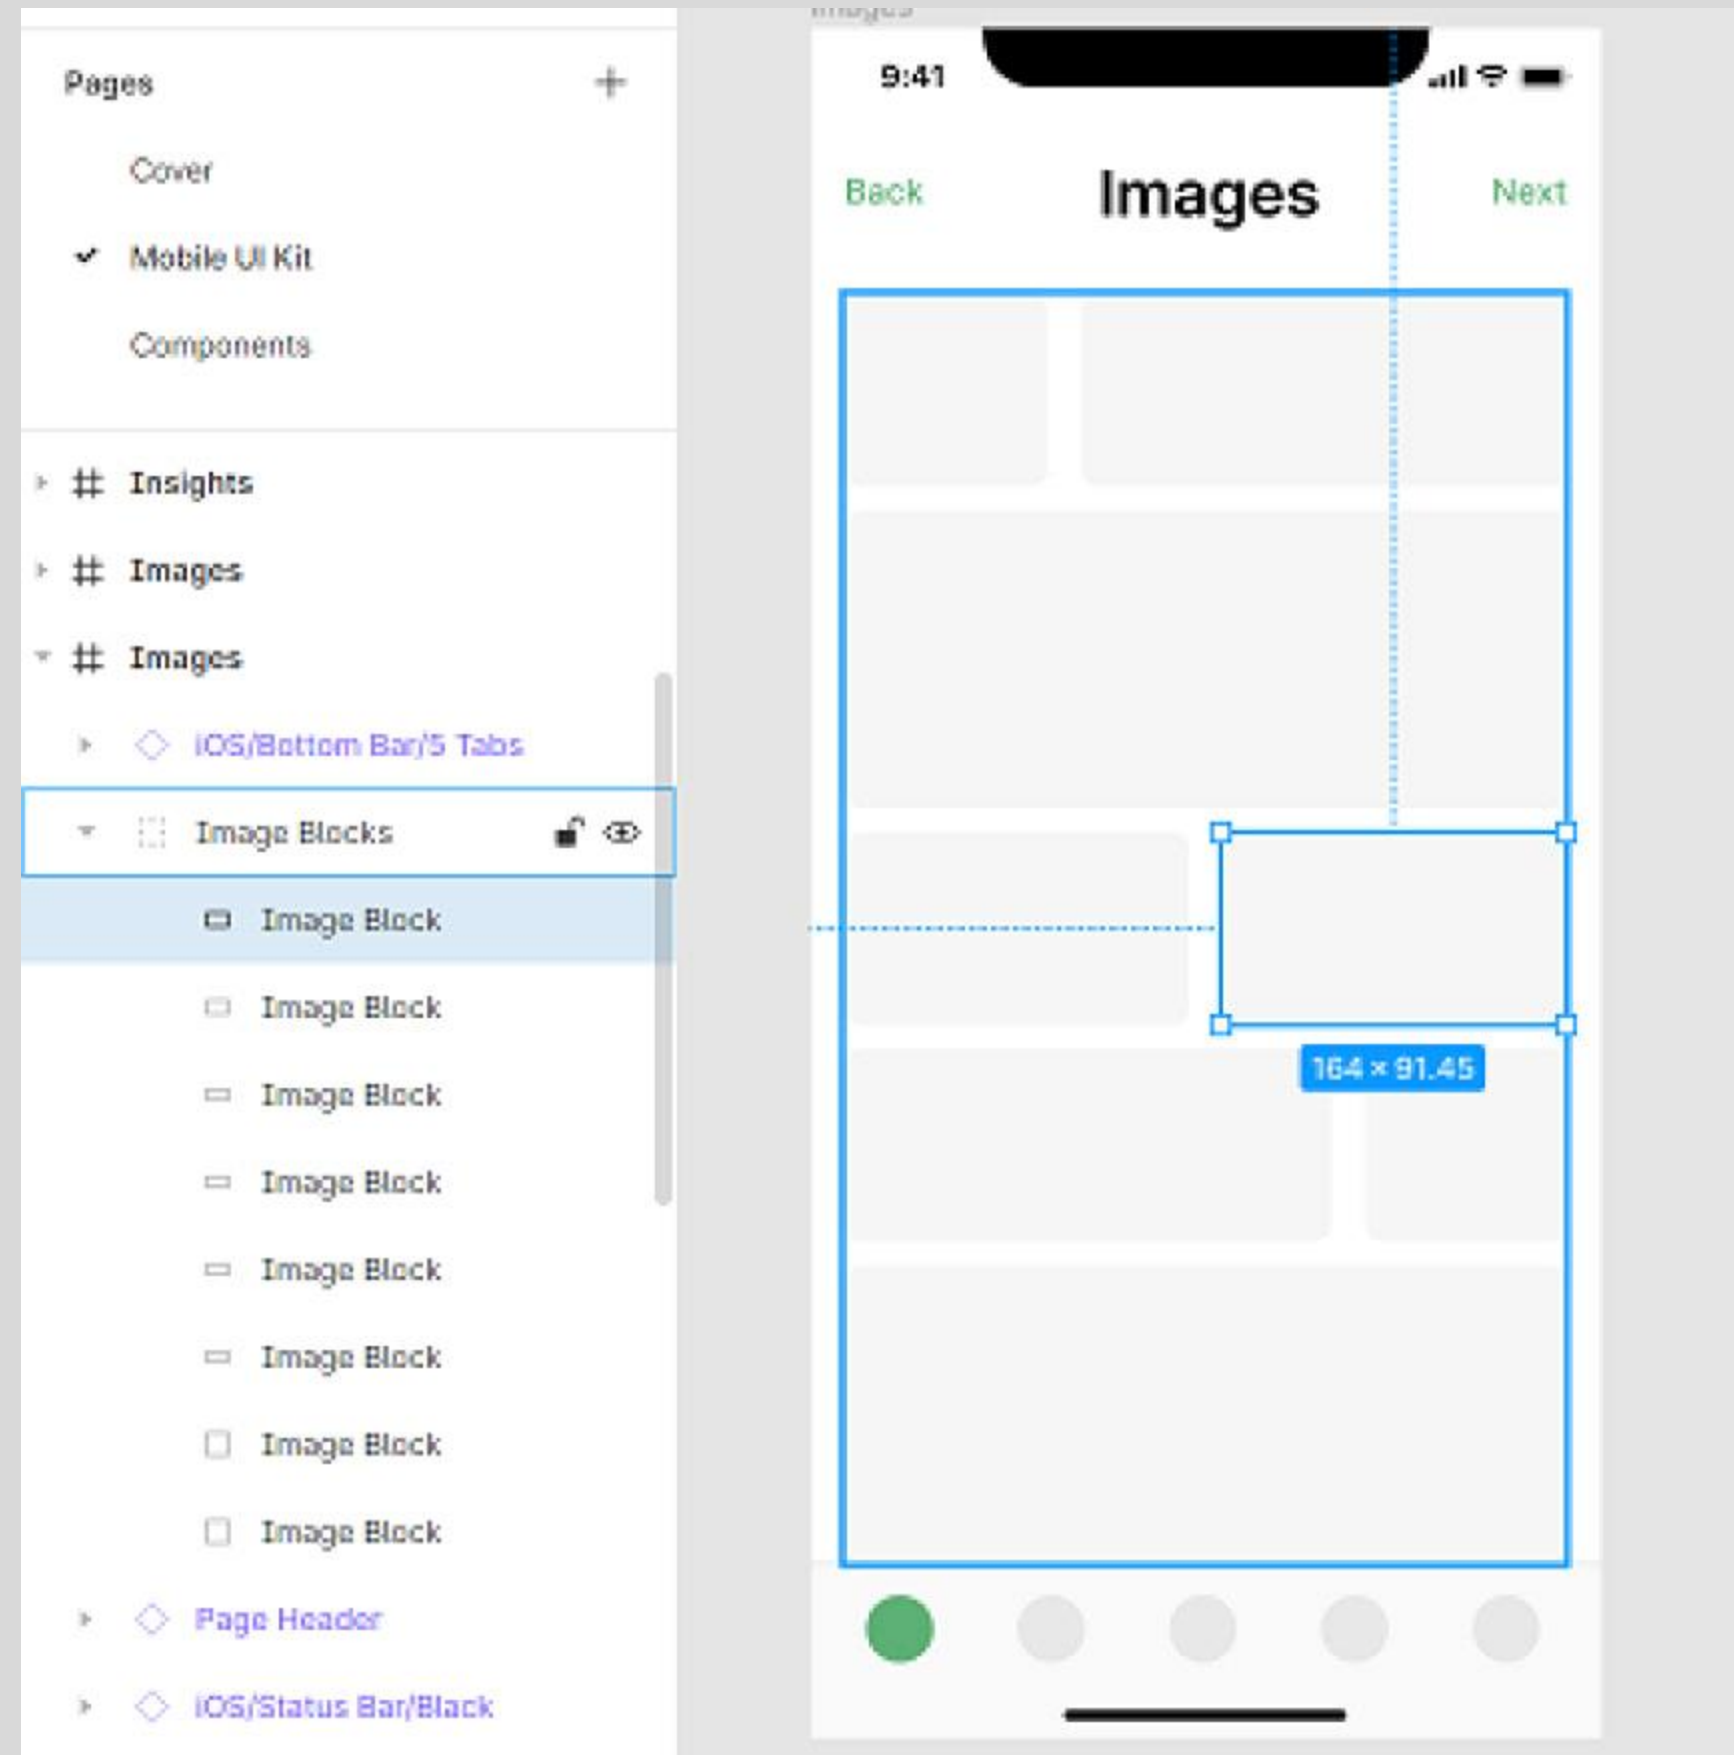

Il pannello dei livelli

Pannello dei livelli

Il pannello dei livelli

Il pannello dei livelli

Nel pannello dei livelli vi è la lista di tutti i livelli presenti nel progetto. Ognuno ha un'immagine o un'icona, che corrisponde all'elemento che troviamo nel layout (es: la T corrisponde a un testo, la - rappresenta un divisore, ecc...).

L'icona  indica che è un frame. Cliccando su un'icona, Figma fa lo zoom di quel frame; ciò rende possibile navigare con facilità tra i vari frame.

Aprendo un livello, viene mostrato tutto ciò che contiene quel livello. Possono essere presenti anche dei sottolivelli. La scritta di colore viola sta ad indicare che si sta utilizzando un elemento chiamato *componente*. L'icona di un quadrato tratteggiato  indica che quell'area è un livello raggruppato; un raggruppamento viene usato ogni volta che abbiamo tanti elementi che compongono un insieme logico, e quindi anziché modificarli o spostarli singolarmente, li possiamo spostare come se fossero un unico elemento. Si può comunque modificare il singolo elemento, o spostandoci sul singolo elemento che compone il raggruppamento, o togliendo il raggruppamento (*ctrl+shift+g*) e da questo momento i vari elementi sono tutti singoli. Dopodiché, se dopo le modifiche, si vuole che quegli elementi diventino nuovamente parte di un raggruppamento, bisogna selezionarli uno per uno tenendo premuto shift e poi cliccando *ctrl+g*.

I componenti

Nella sezione *assets* della pagina *components* vengono mostrati tutti gli elementi che vengono ripetuti nel progetto e che sono stati classificati come componenti.

► Come rendere un elemento un componente?

Cliccare con il tasto destro sull'elemento e poi su *create component*. L'elemento apparirà nel pannello a sinistra e sarà possibile continuare a duplicarlo.

► Qual è il vantaggio di utilizzare un elemento in questo modo, anziché copiare ed incollare un elemento più volte?

Modificando l'elemento che è un componente, la modifica viene applicata in tempo reale a tutte le copie del componente.

I componenti

Per modificare un componente e far sì che la modifica venga applicata a tutte le copie, è necessario modificare il *componente master*.

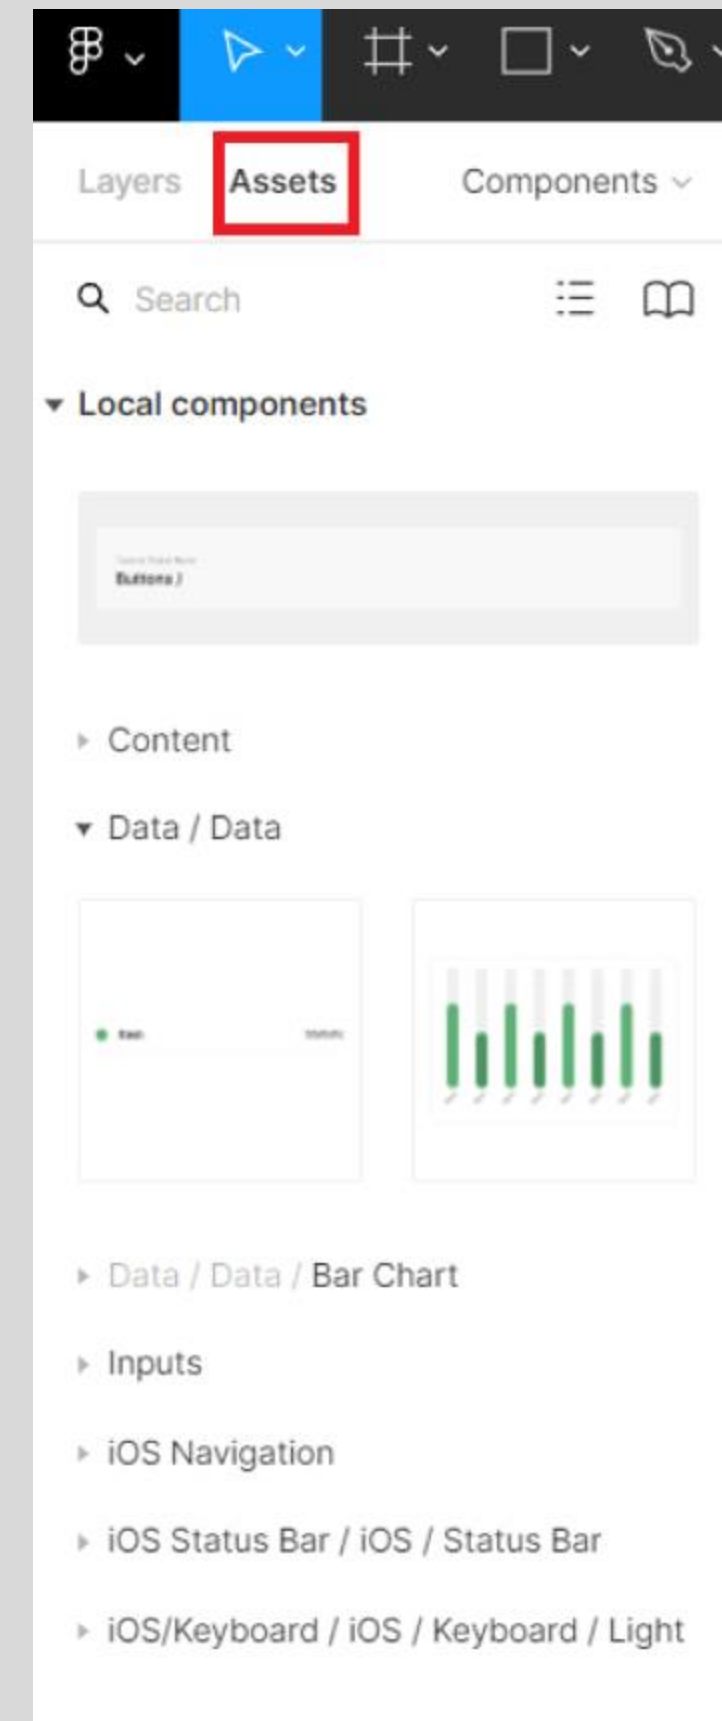

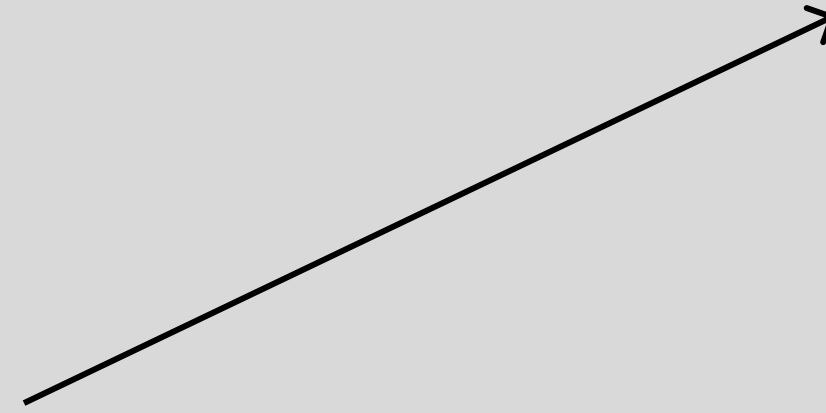

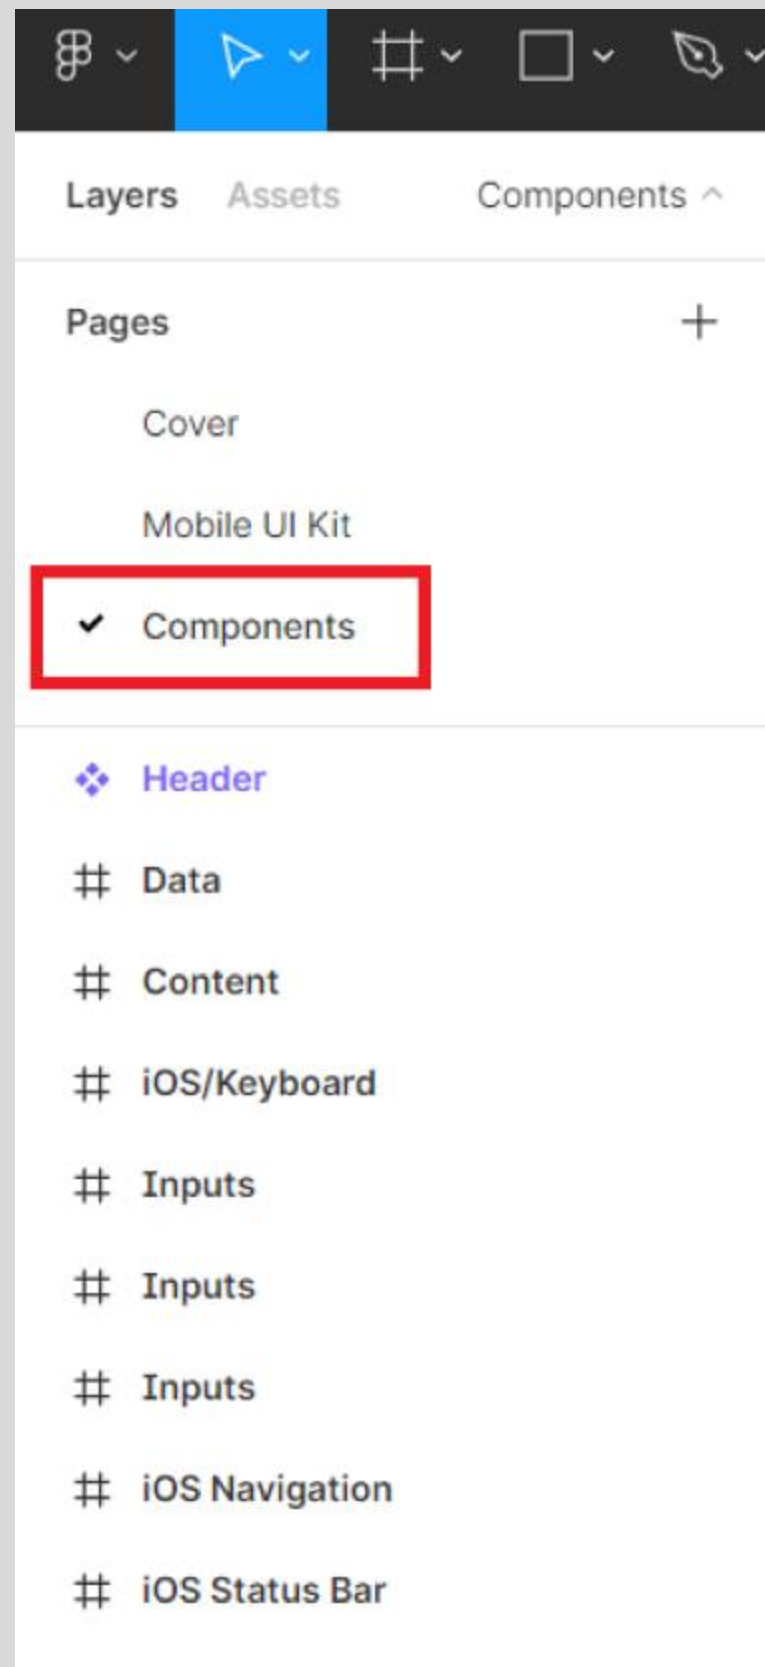

▶ Come individuare il componente master?

Cliccare con il tasto destro su uno dei cloni e poi su *Go to main component*. Figma riporta al primo elemento creato, cioè quello master.

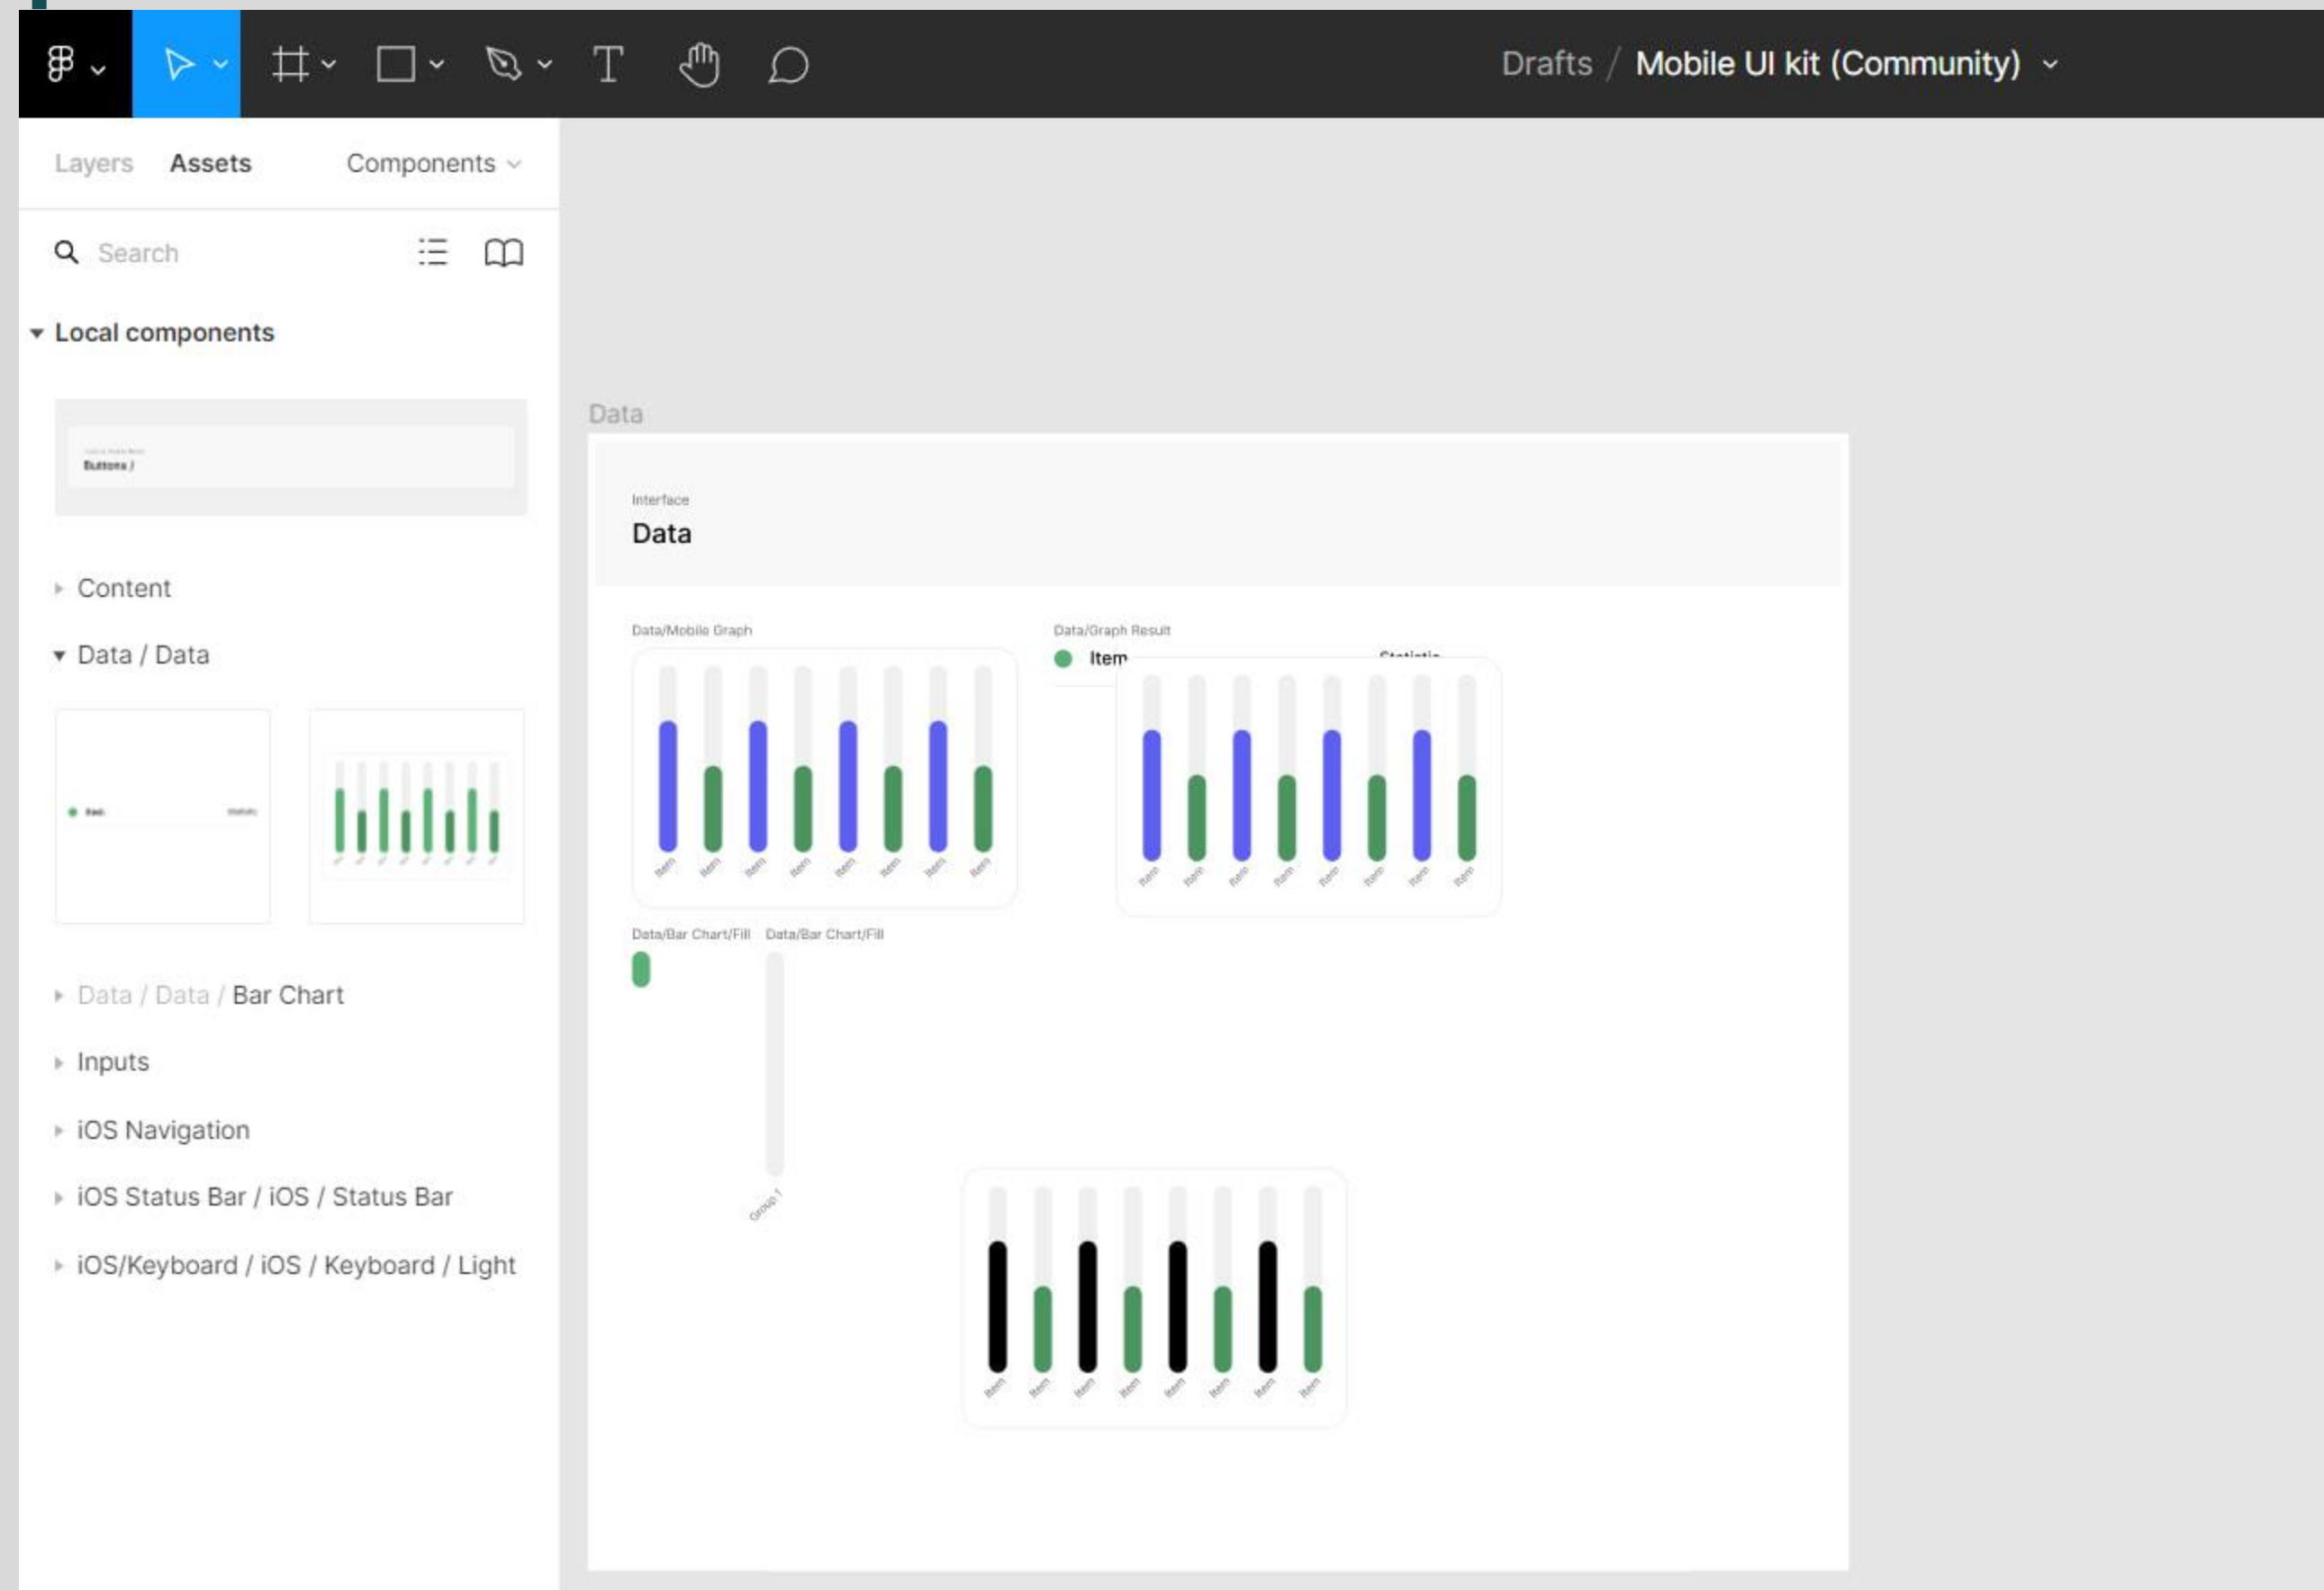

E' possibile comunque modificare un singolo elemento clone, in modo tale che la modifica valga solo per quell' elemento.

I componenti

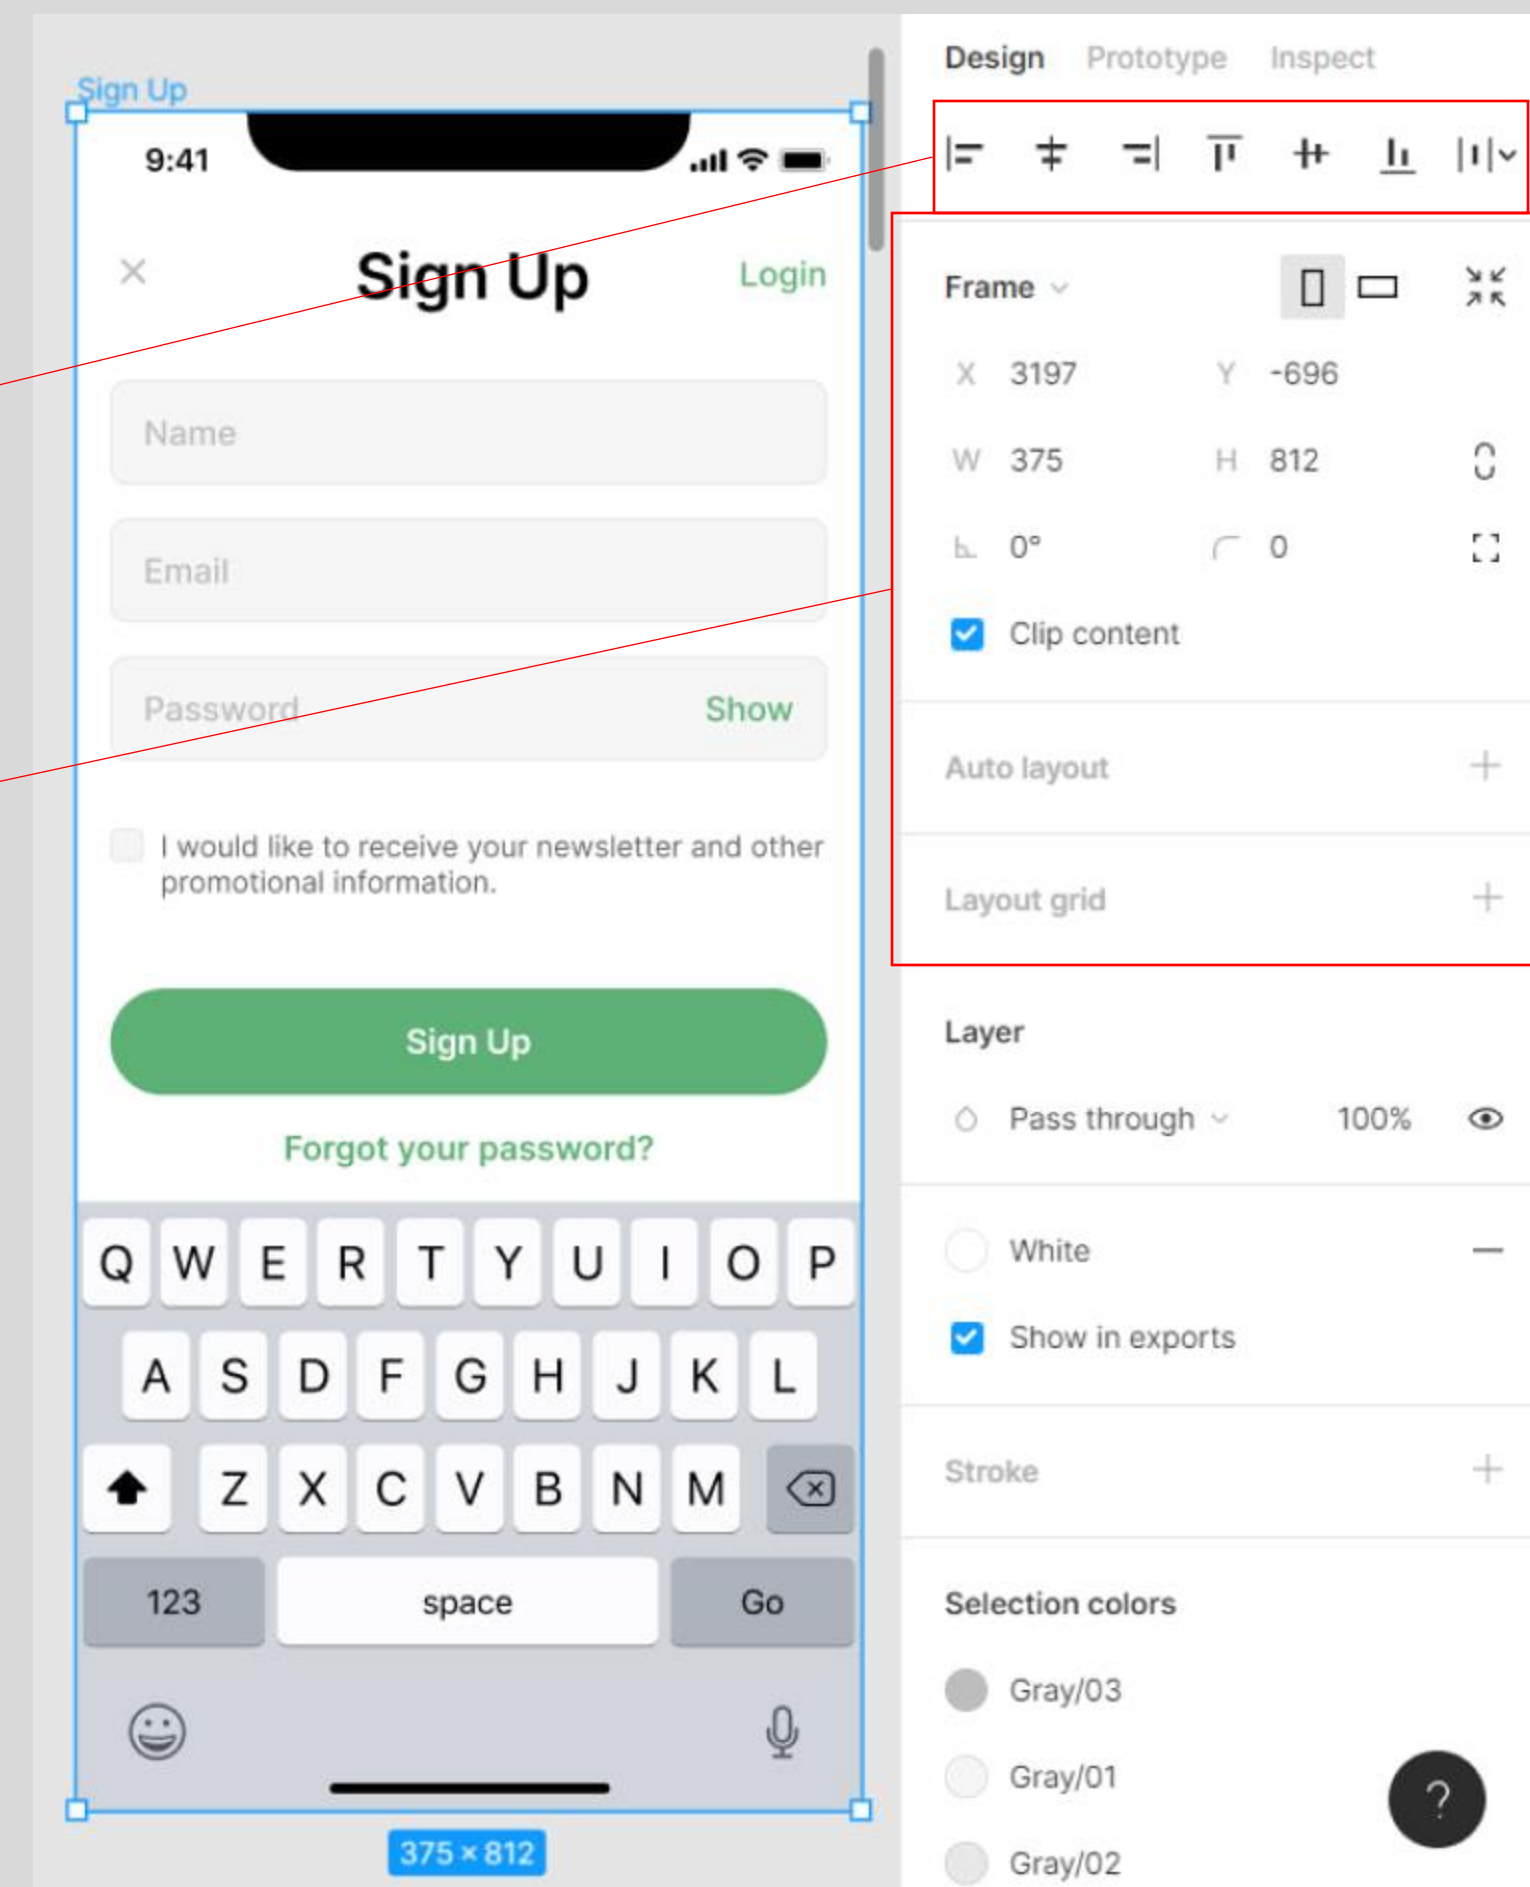

I componenti

Il pannello design

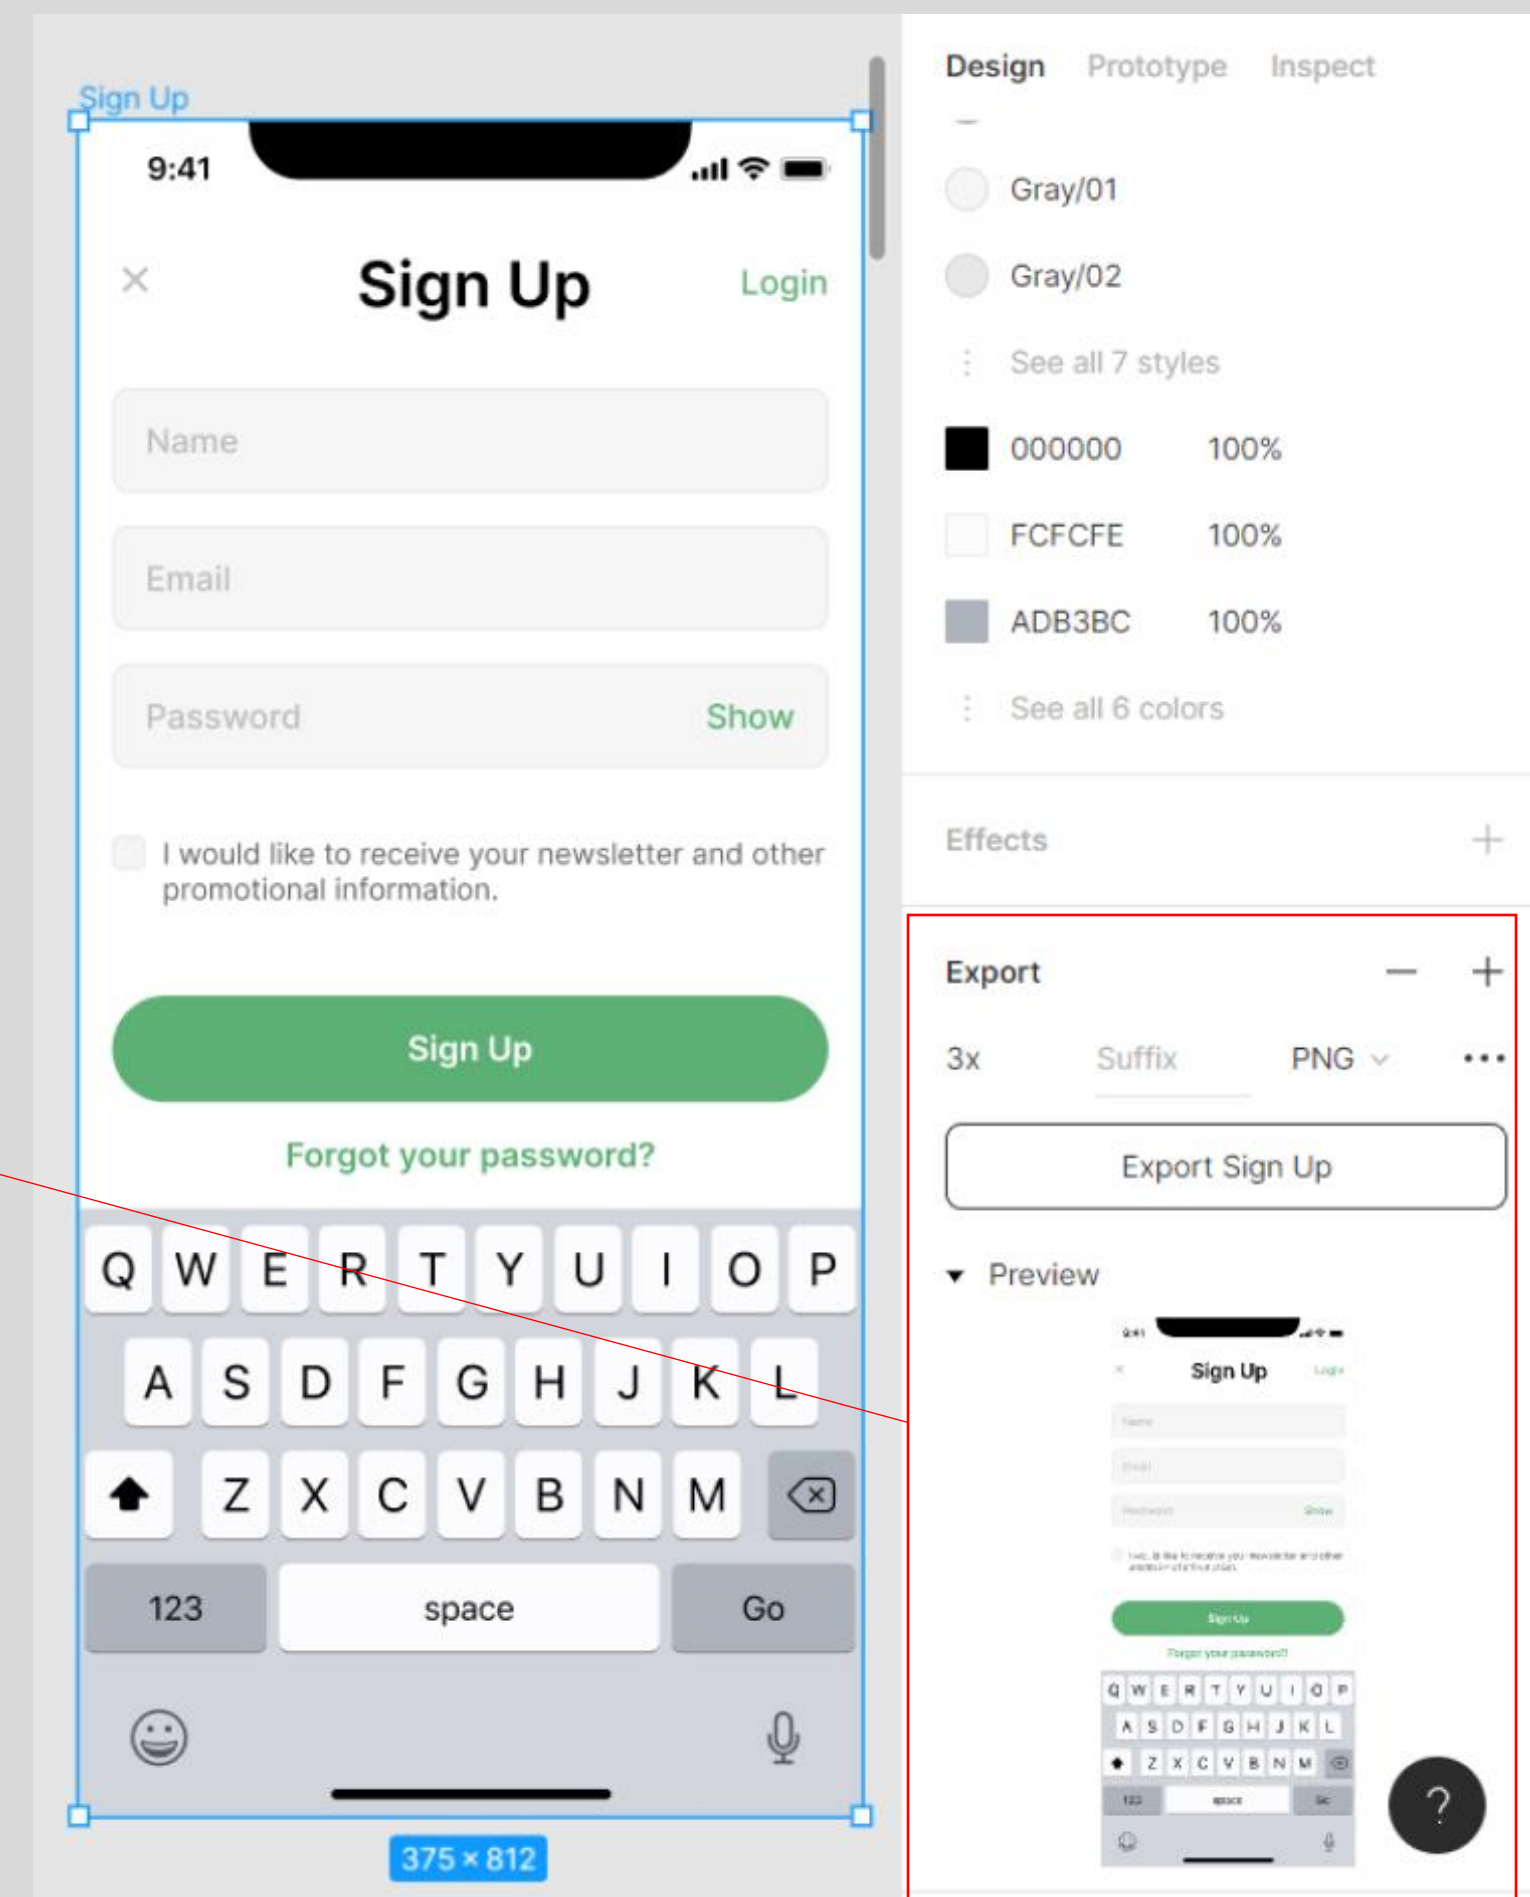

Tipi di allineamento

Valore numerico della posizione dell'elemento in orizzontale e verticale, dell'altezza e larghezza, grado di rotazione dell'elemento e angoli arrotondati. Inoltre, è possibile impostare dei constraints sulle proporzioni, per cercare di bloccare le proporzioni degli elementi.

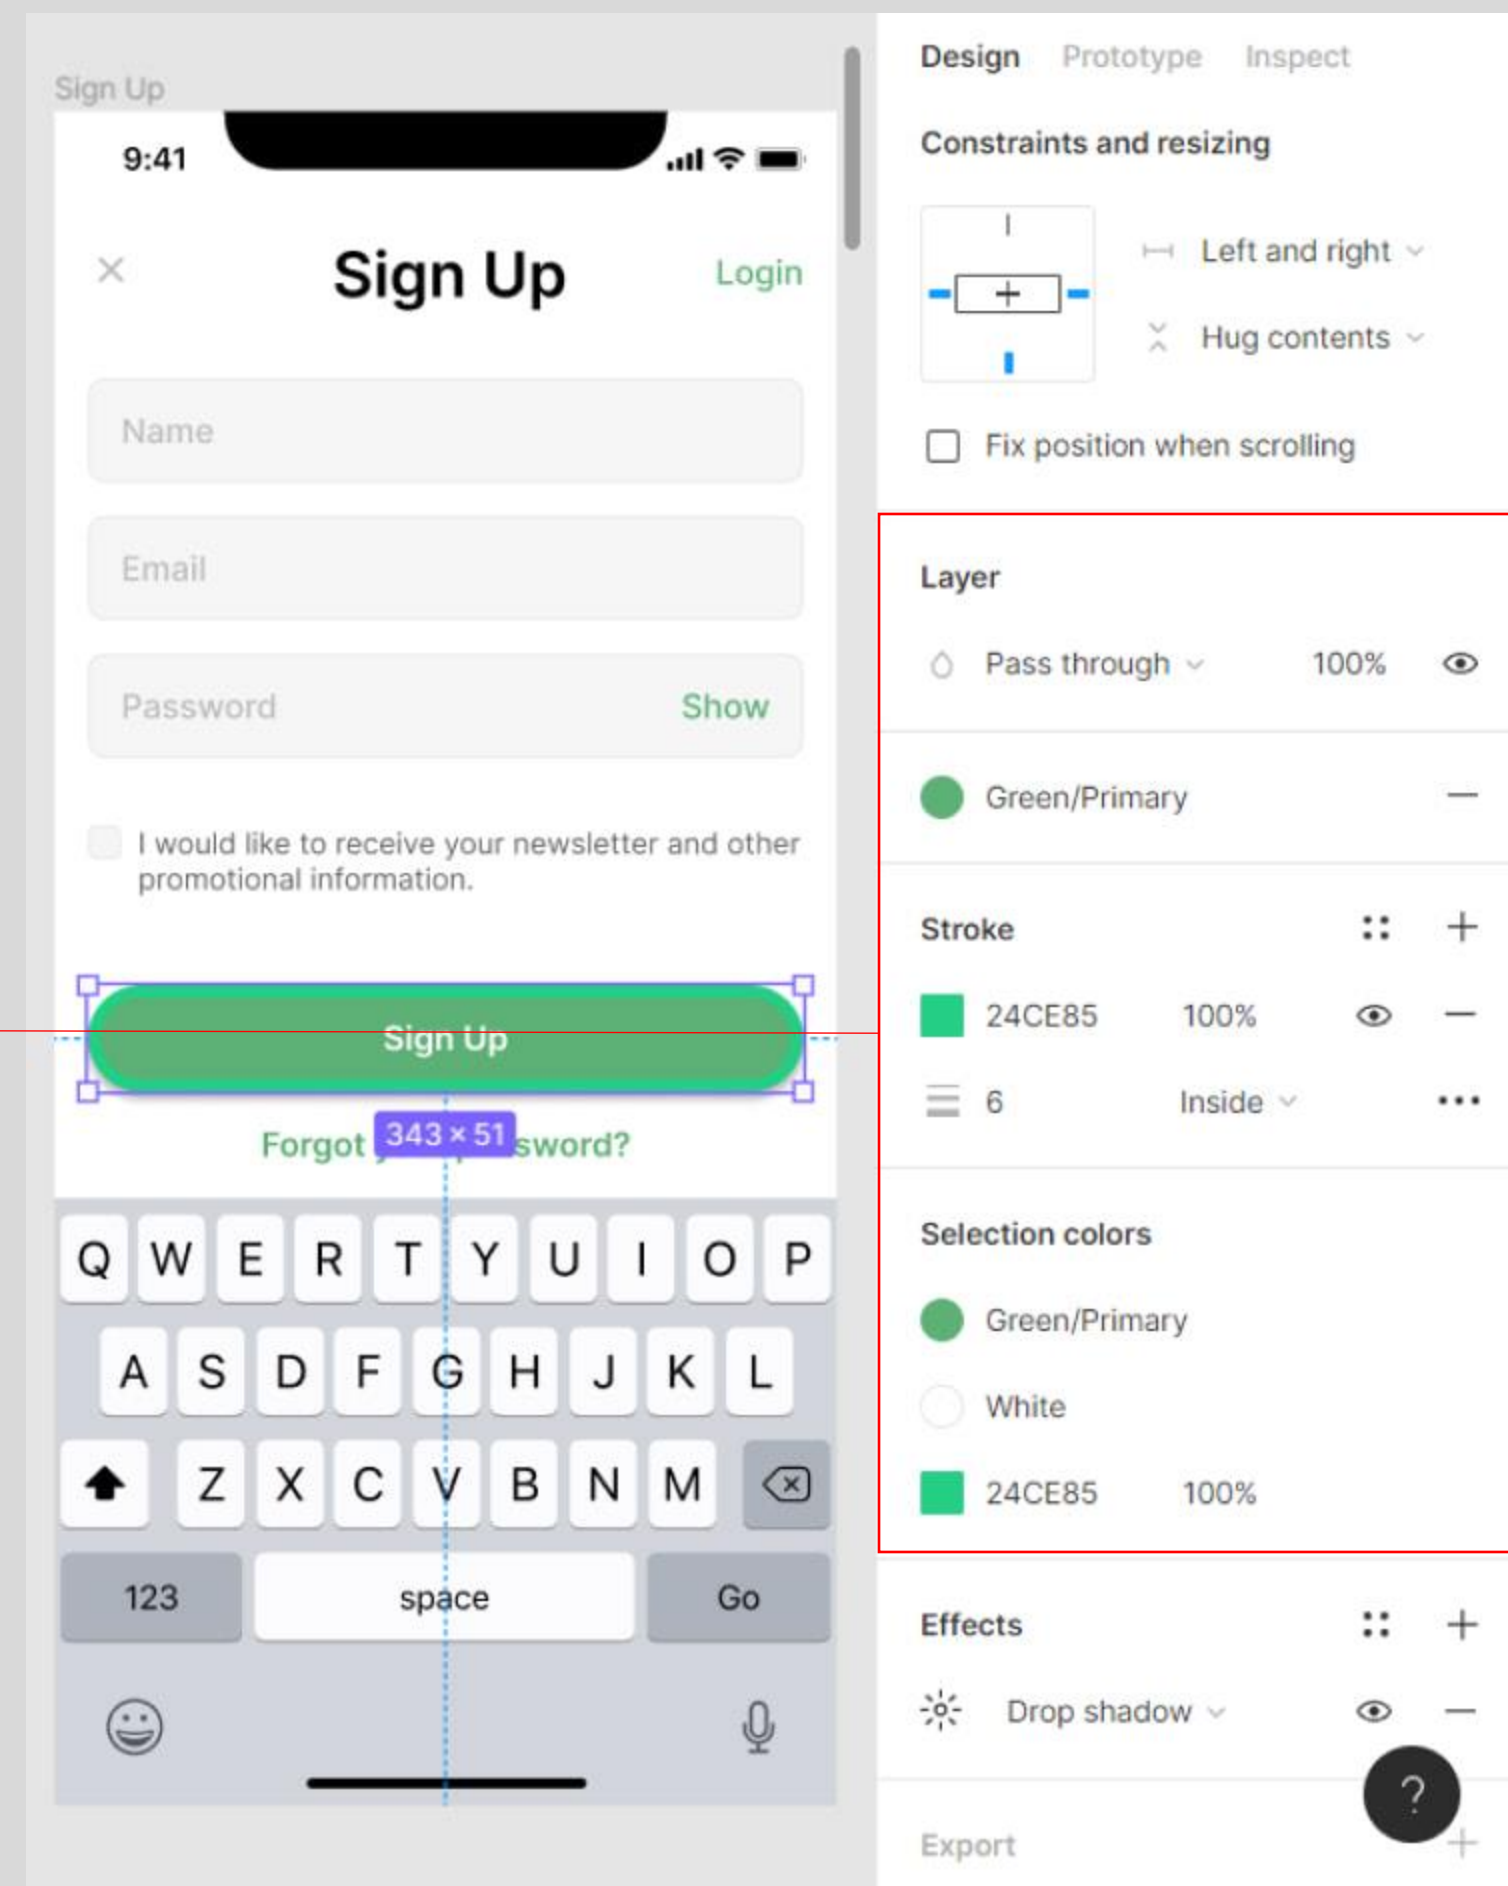

Il pannello design

Figma dà la possibilità di esportare qualunque elemento presente all'interno del progetto o l'intero frame.

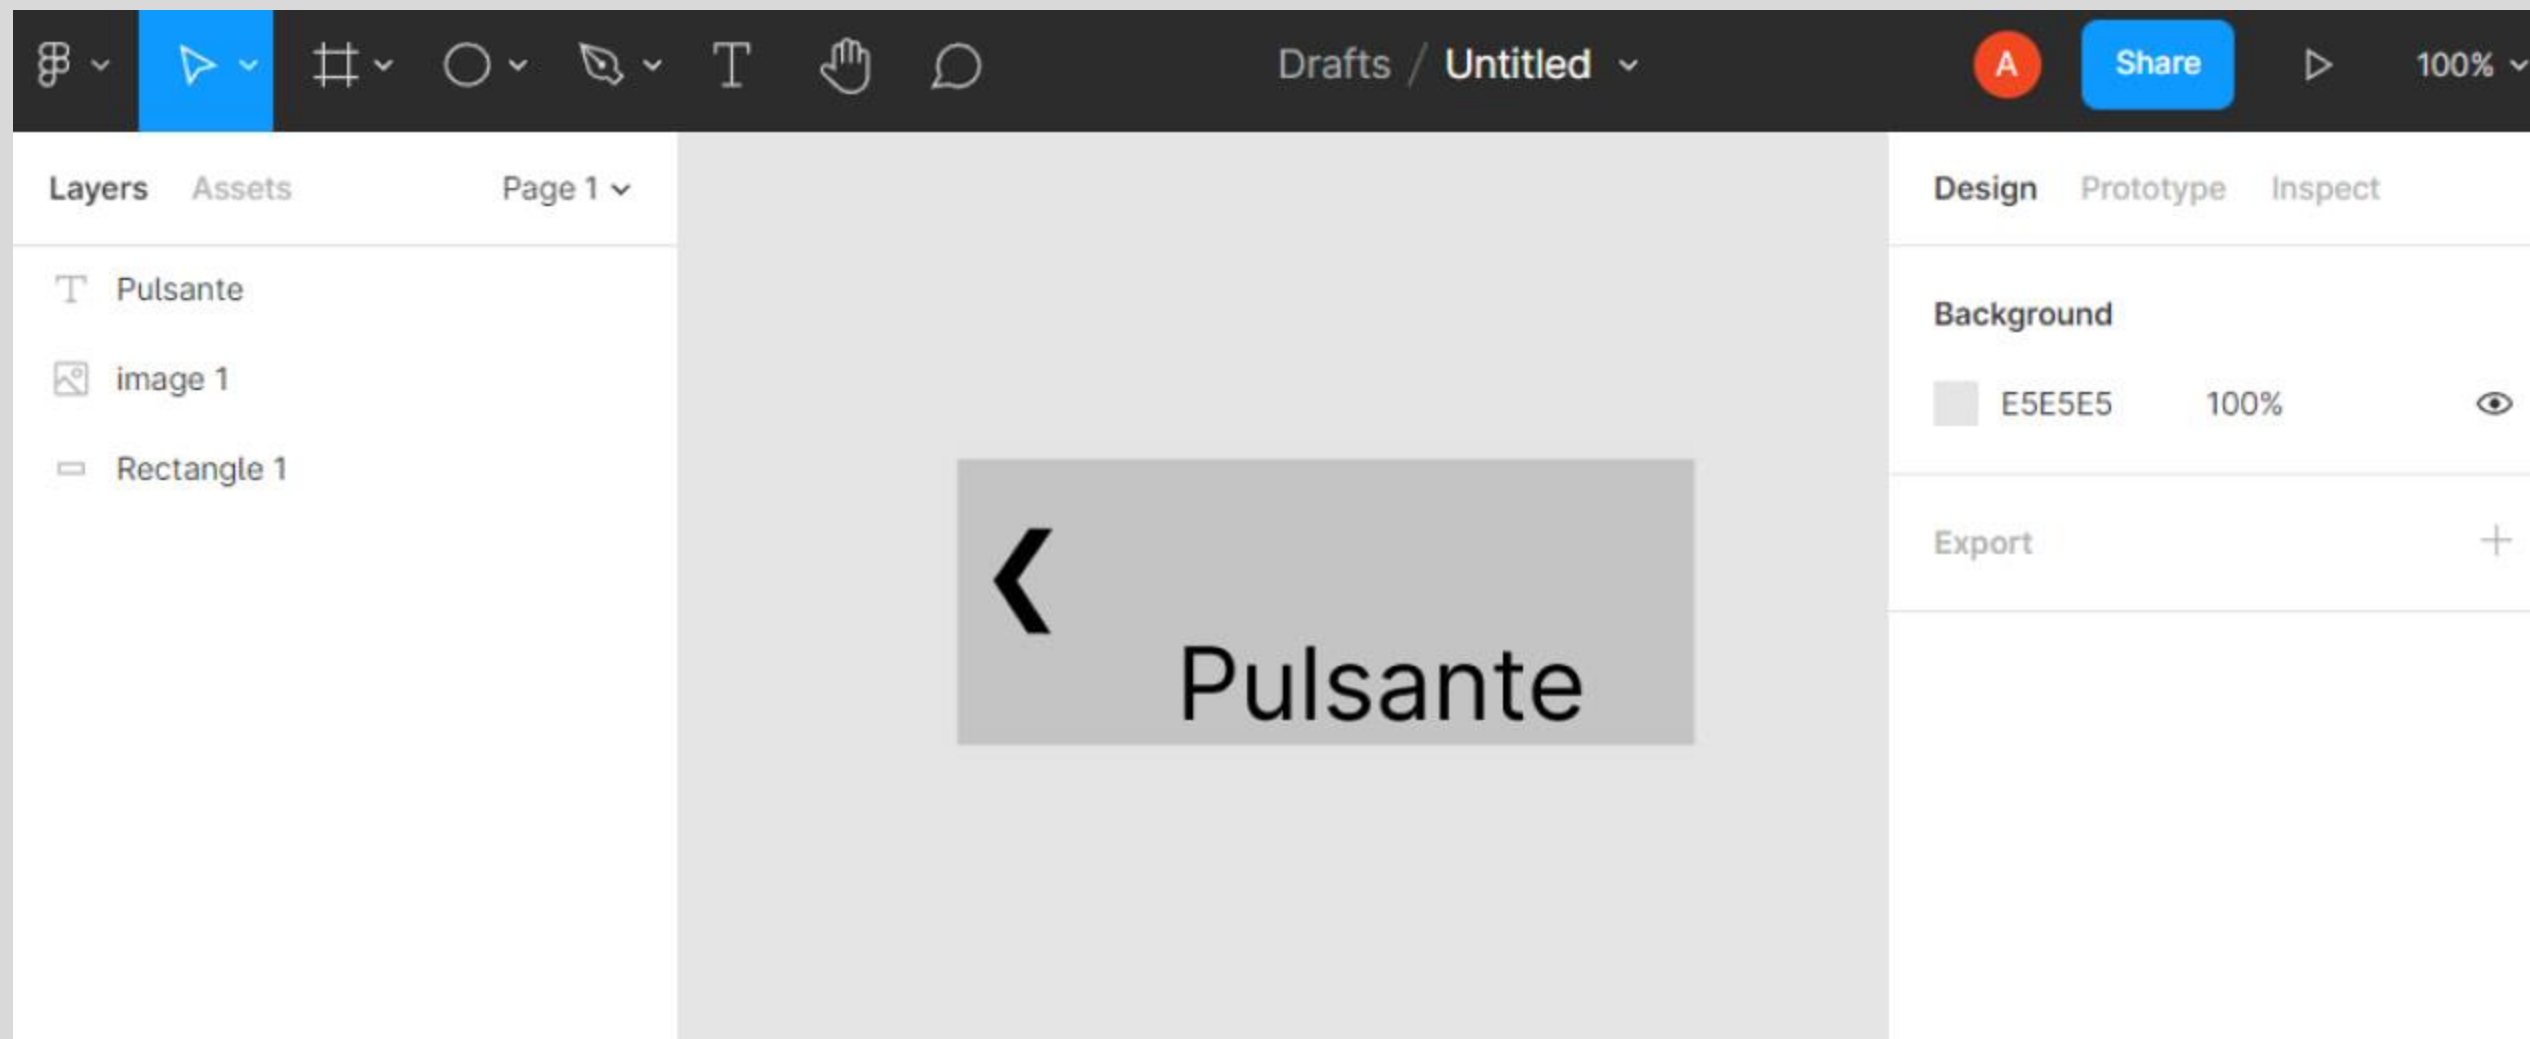

Il pannello design

E' possibile inserire effetti grafici all'elemento cliccato, modificare l'opacità, il colore, inserire un bordo all'elemento.

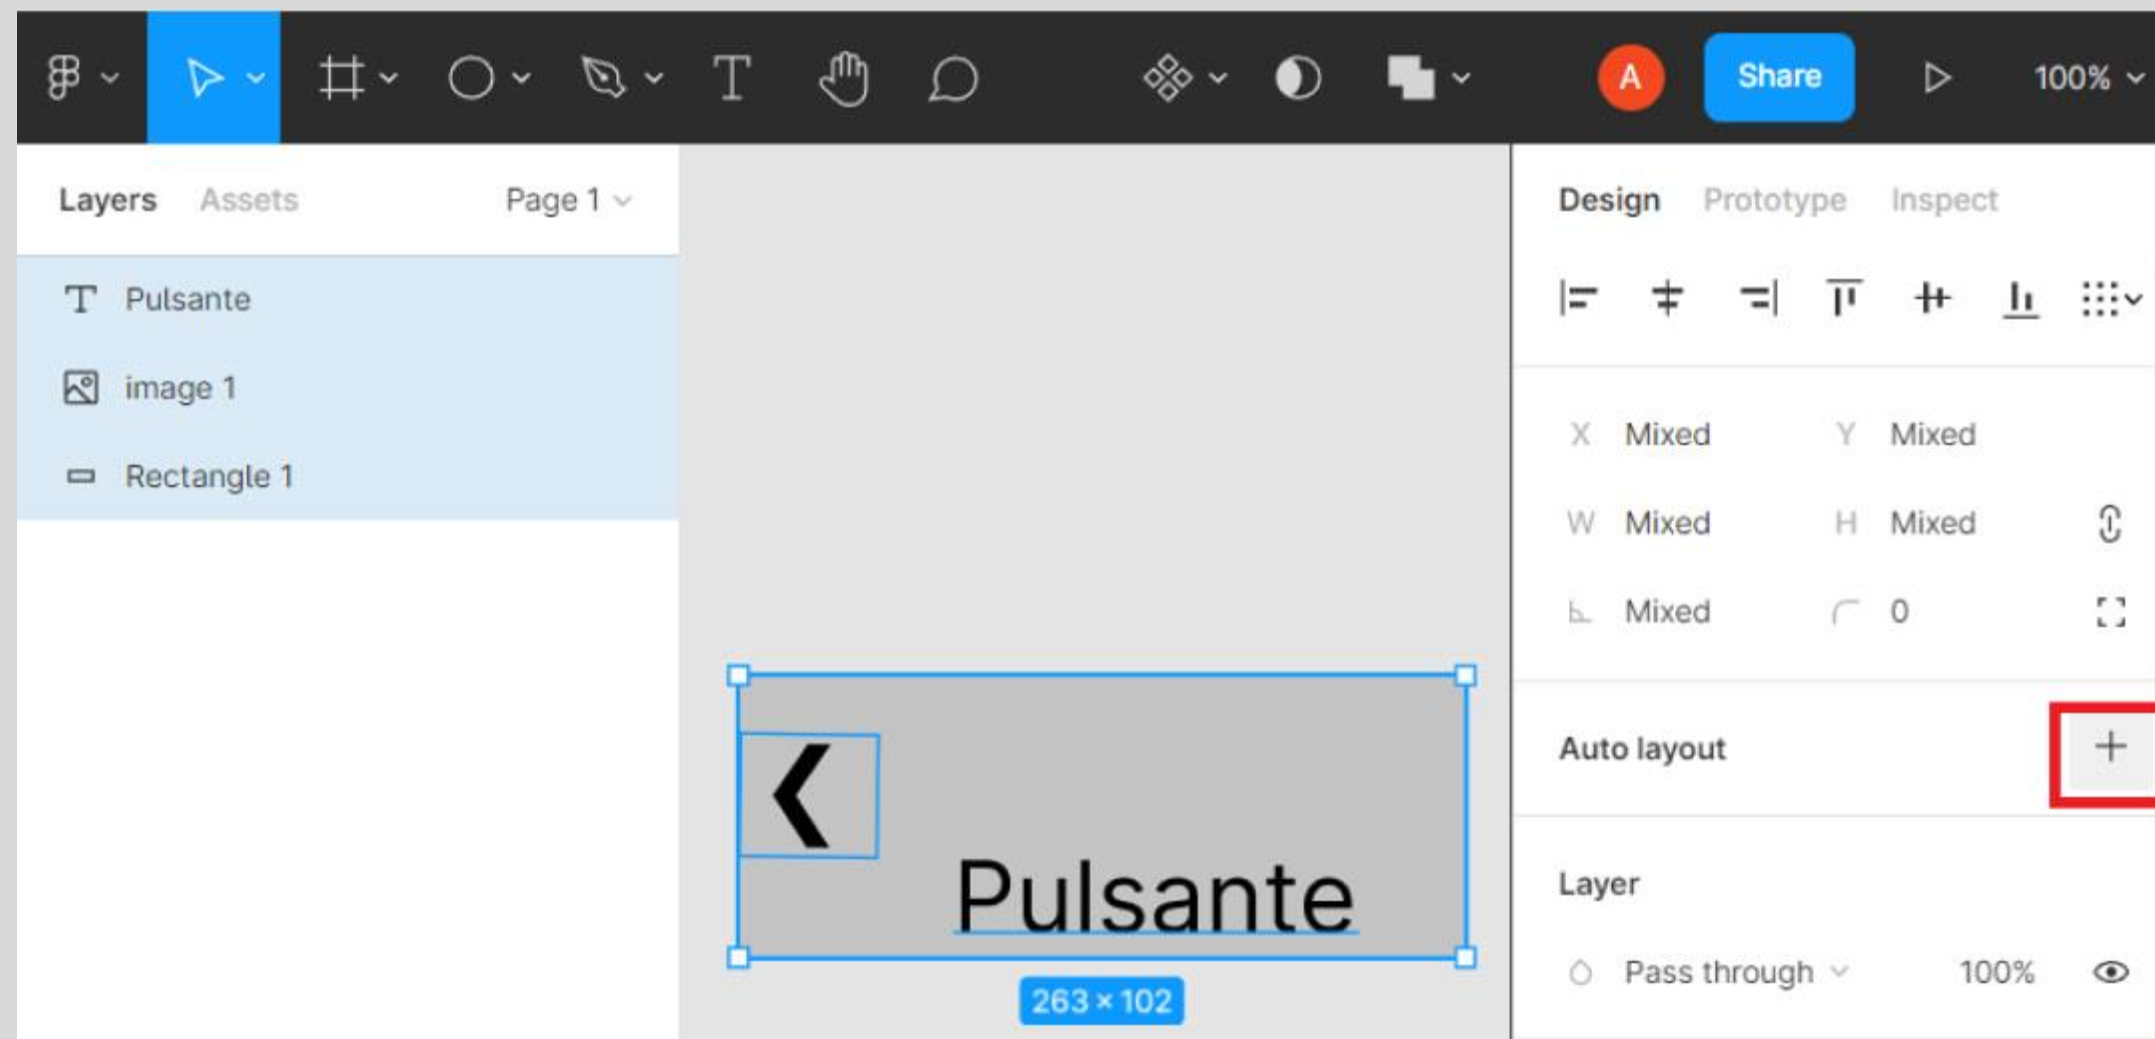

Auto-layout

Supponiamo di voler creare un pulsante. Inseriamo un' icona e una scritta in modo disallineate.

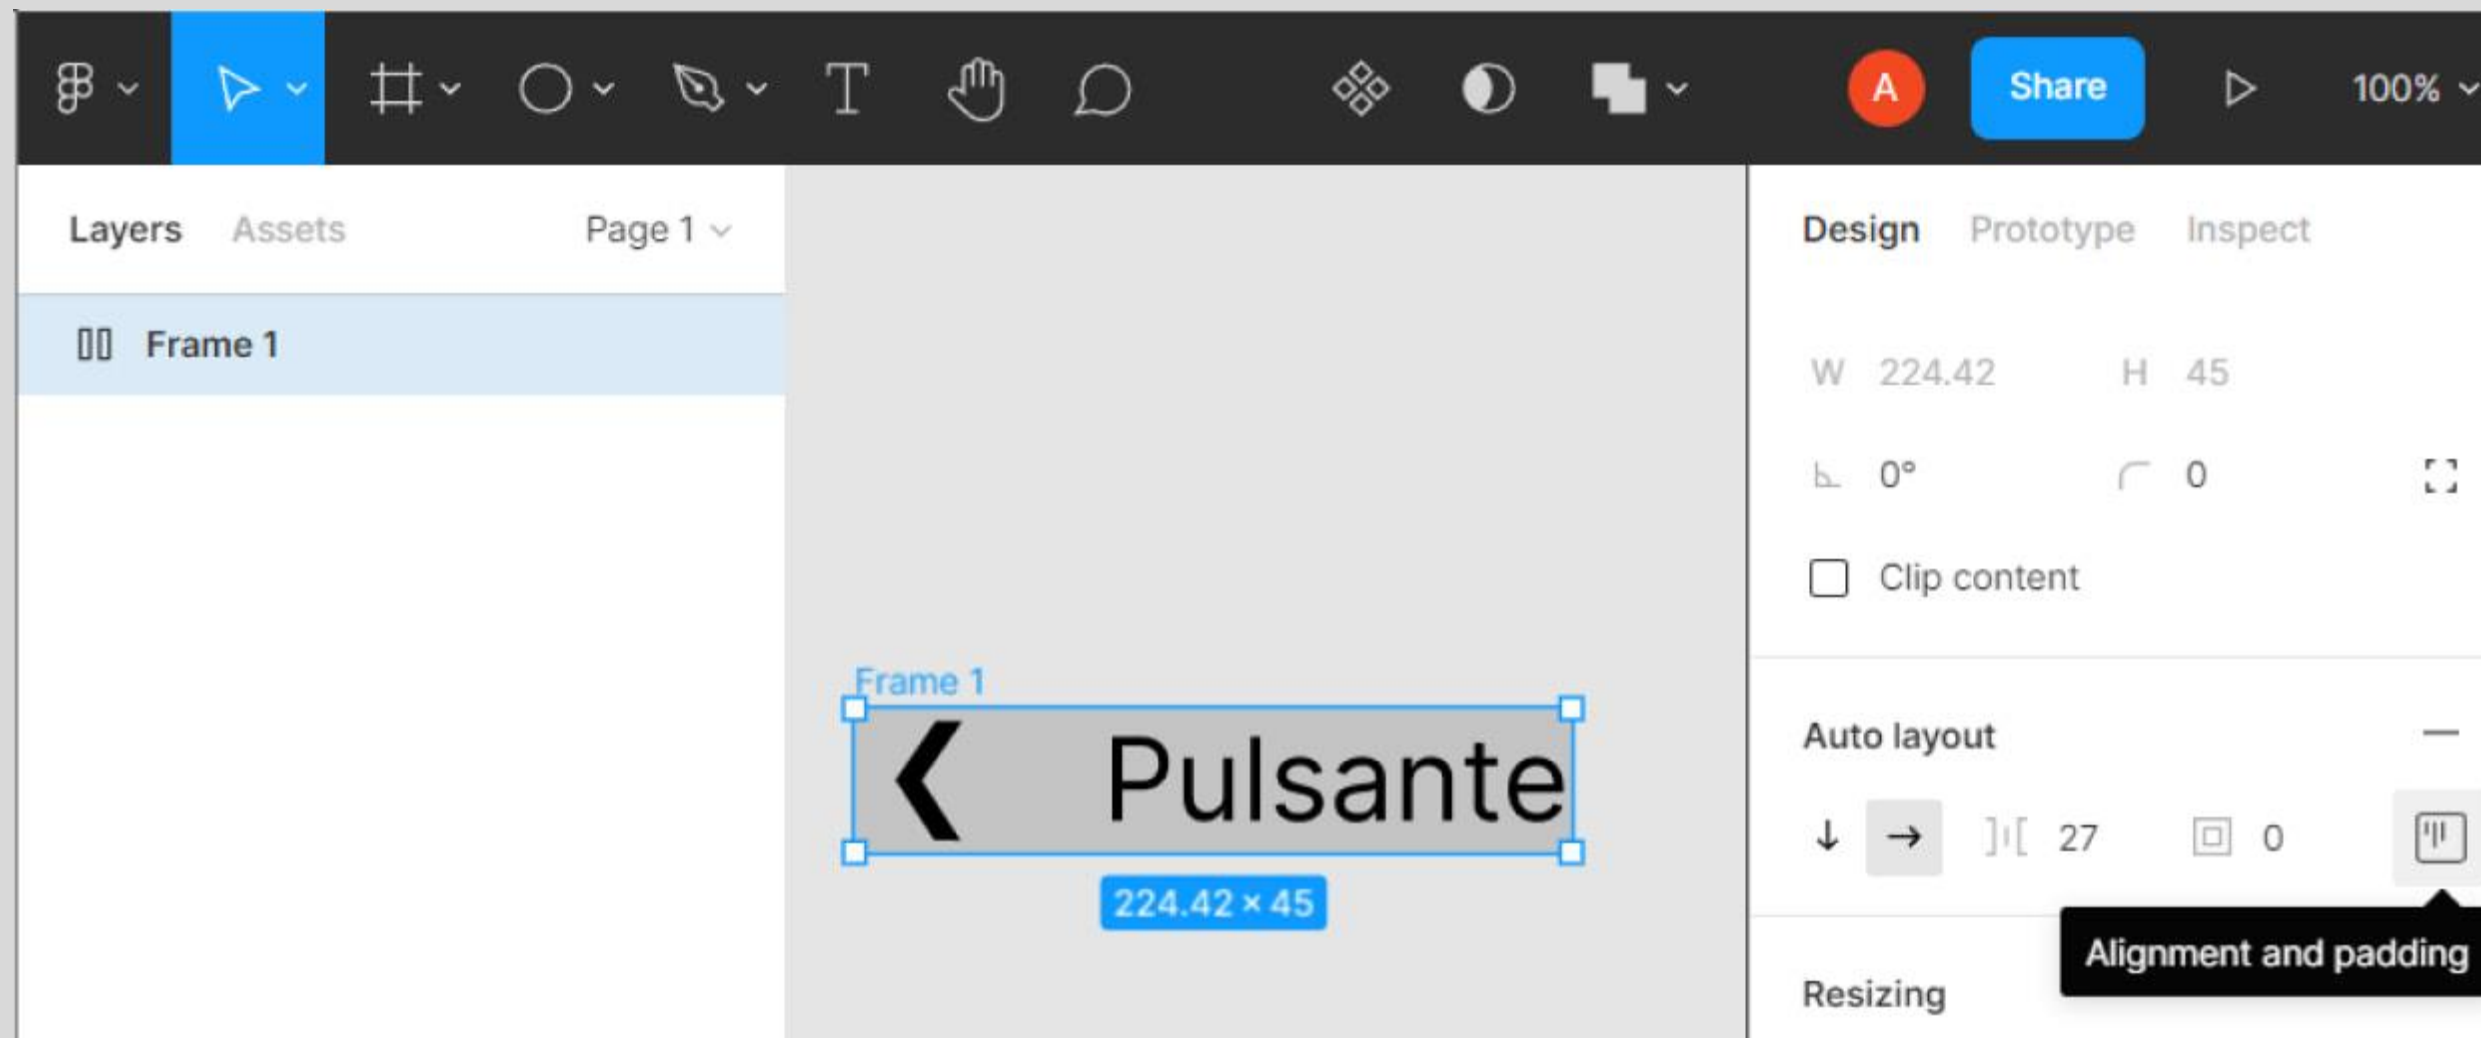

Auto-layout

Selezioniamo tutto e clicchiamo sul pulsante + di auto-layout.

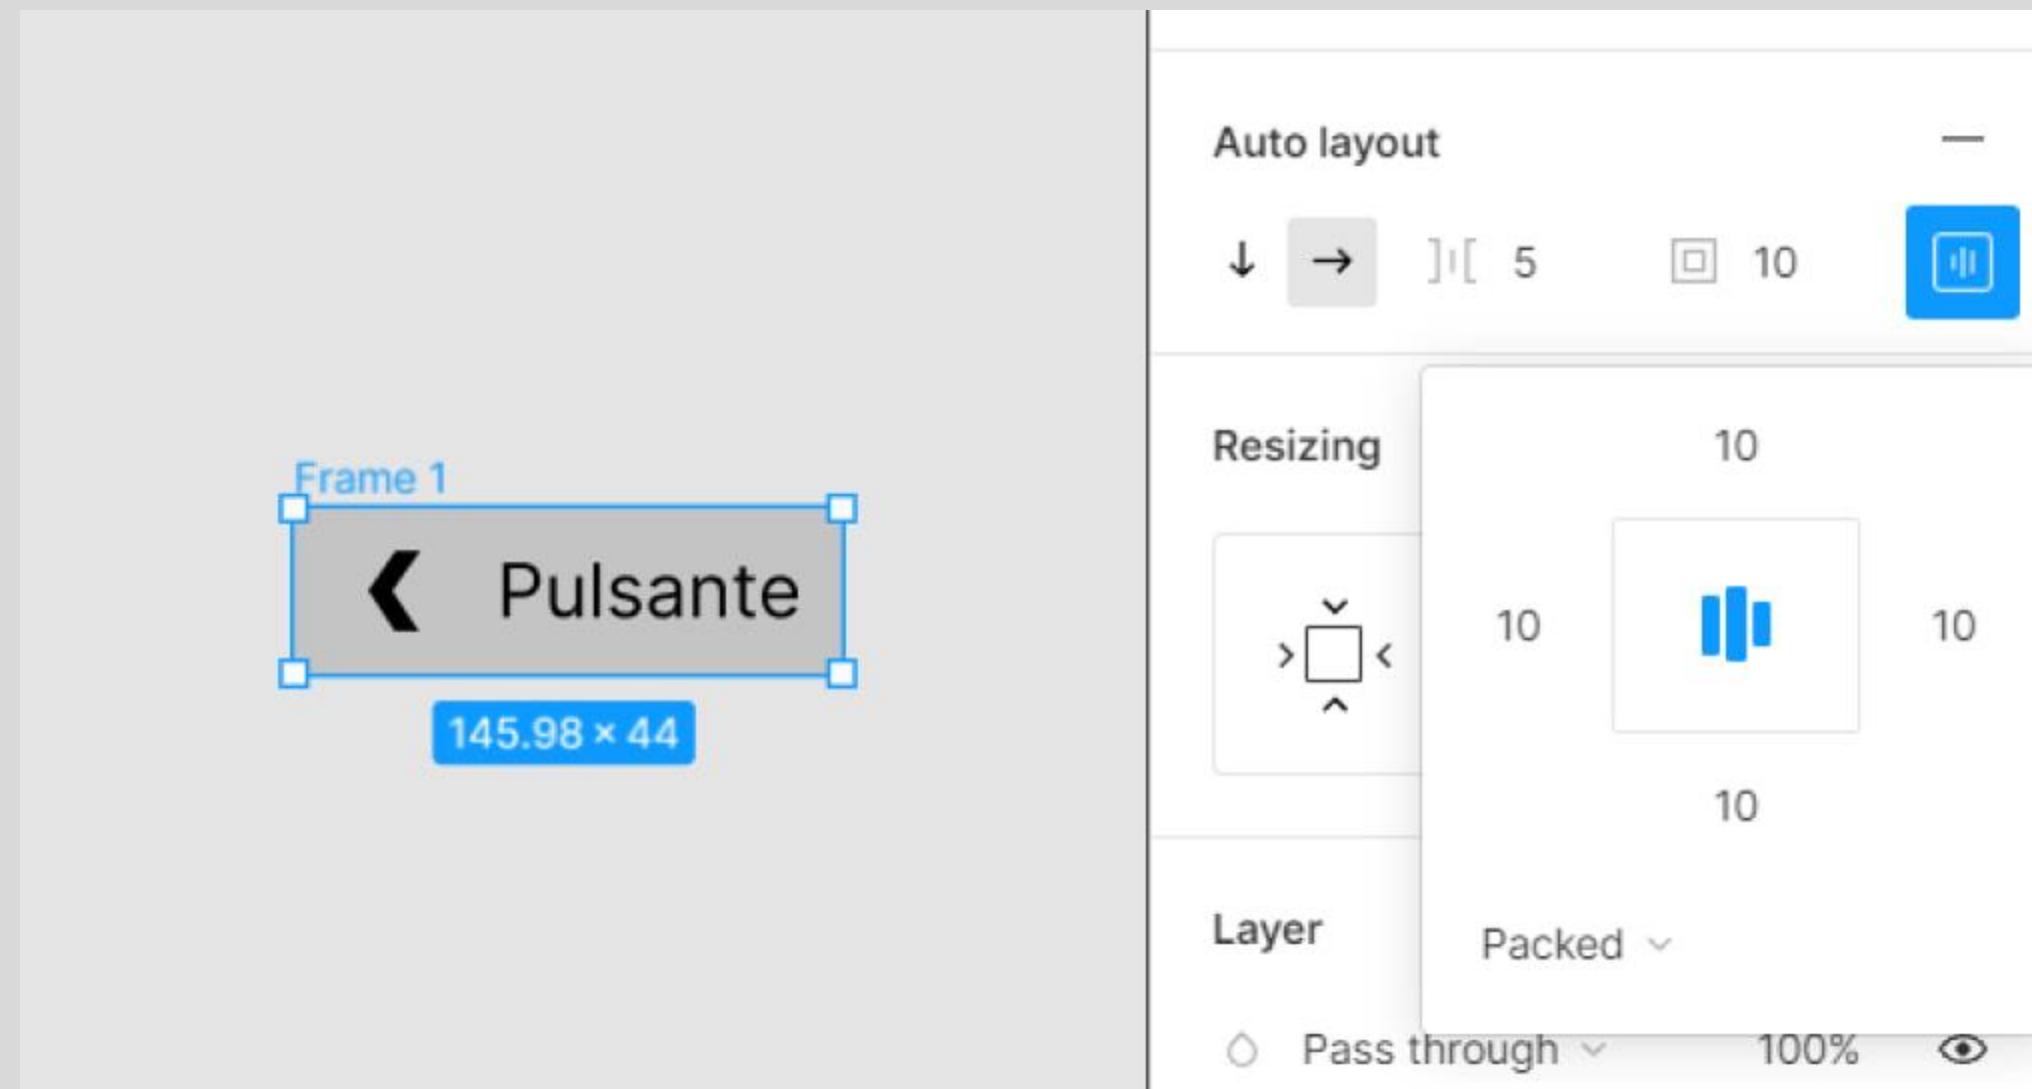

Auto-layout

Da questo momento in poi, tutti gli allineamenti all'interno del pulsante devono essere gestiti nel pannello auto-layout. Allineamo l'icona e il testo. Clicchiamo sul pulsante *alignment and padding*.

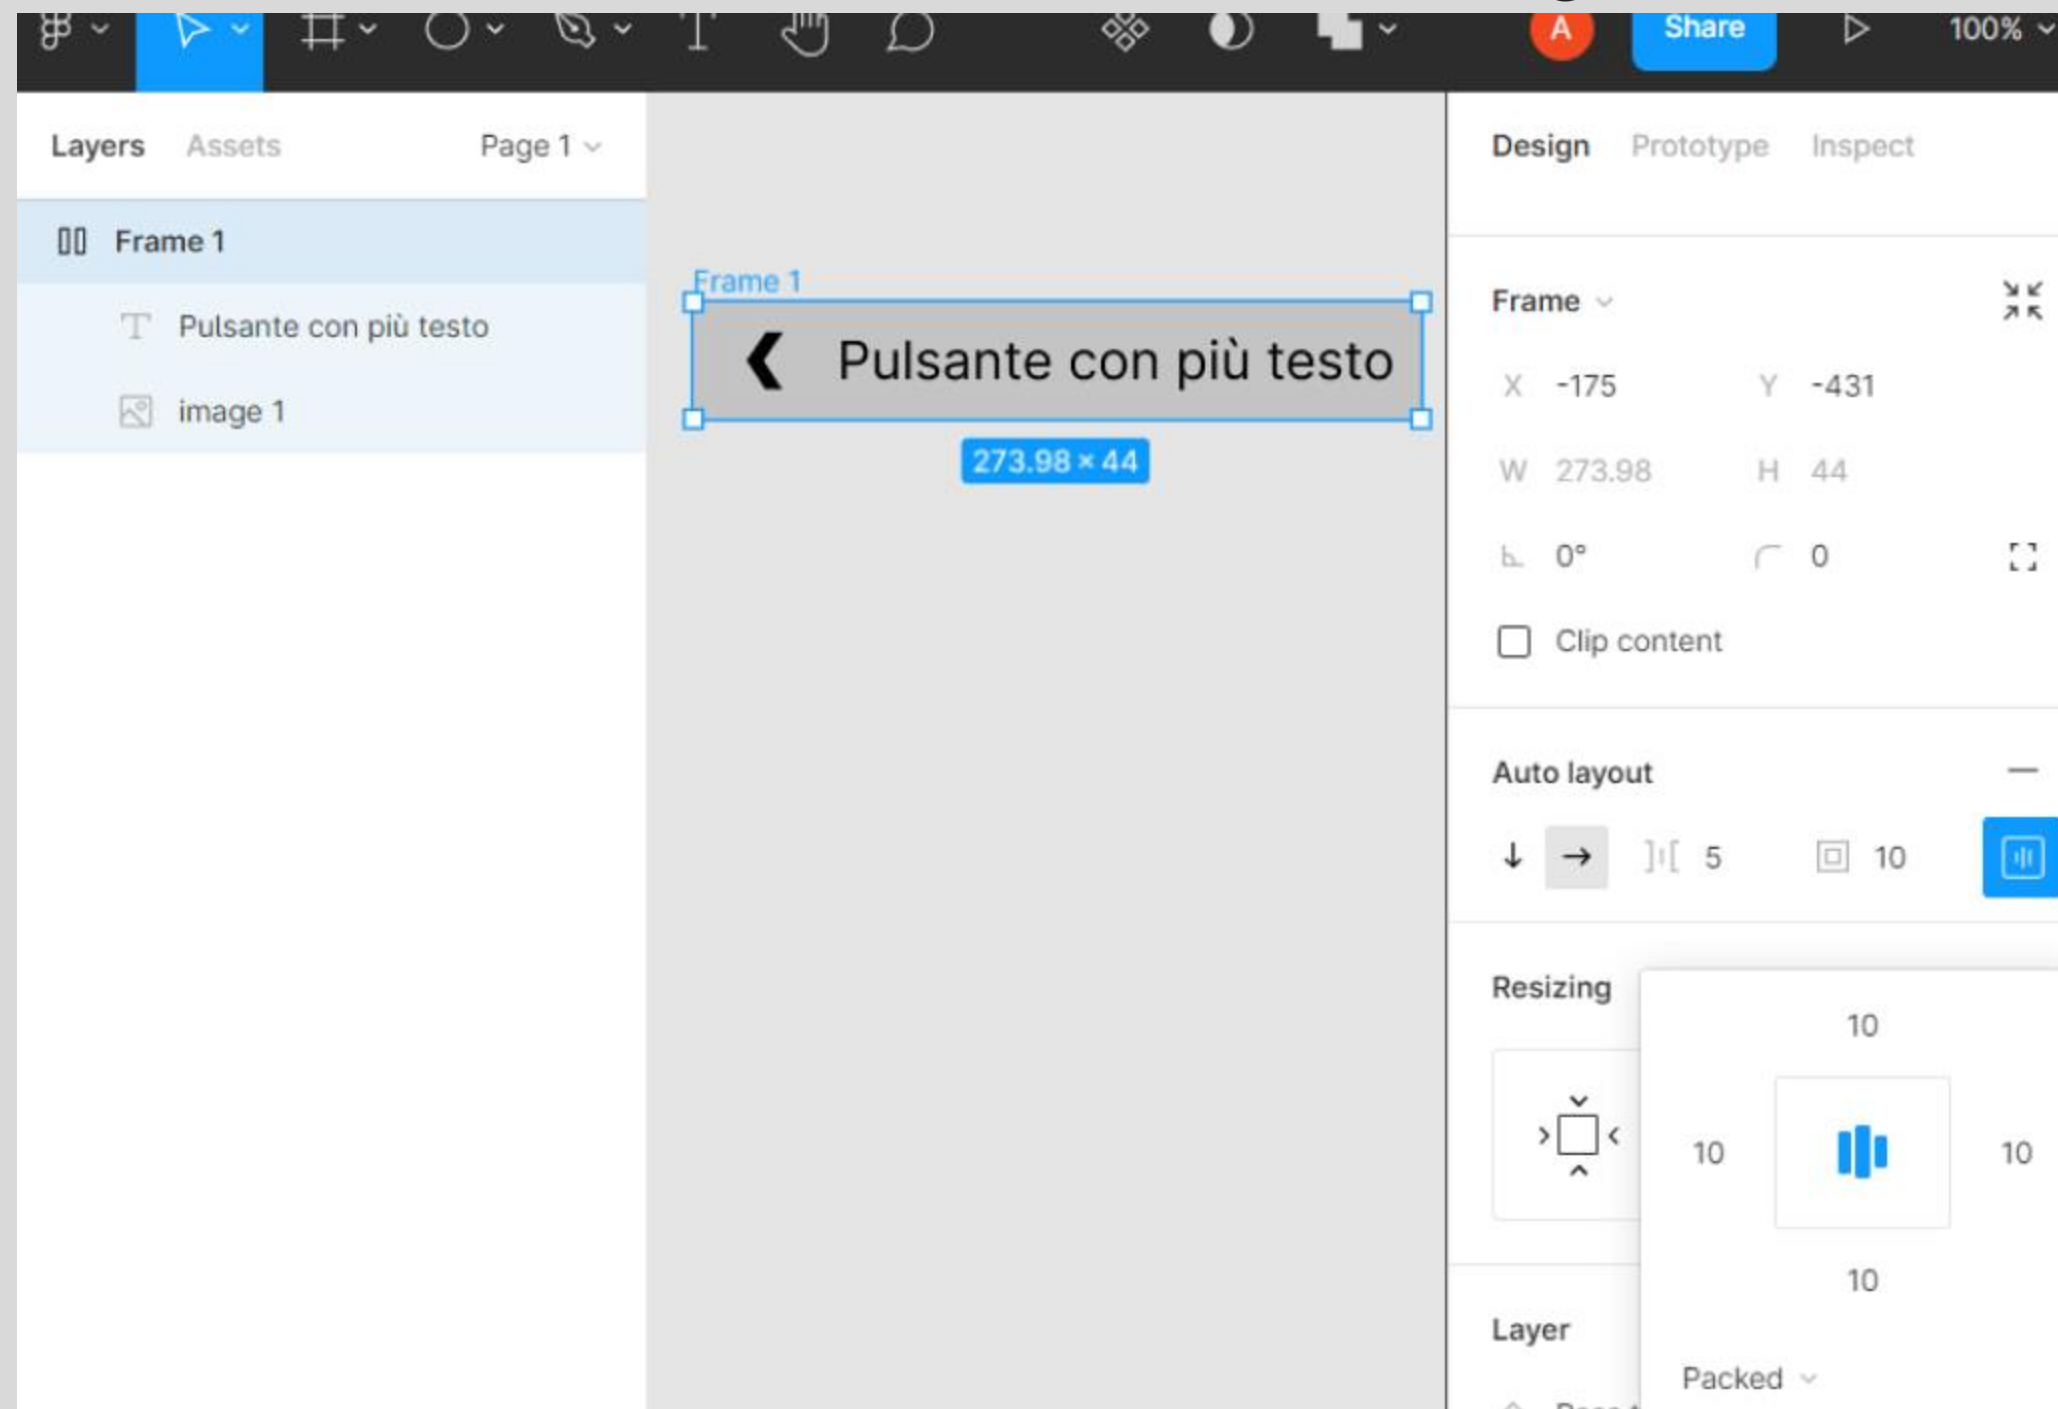

Auto-layout

Selezioniamo allineamento verticale. I numeri rappresentano il padding del pulsante, che è possibile modificare lato per lato.

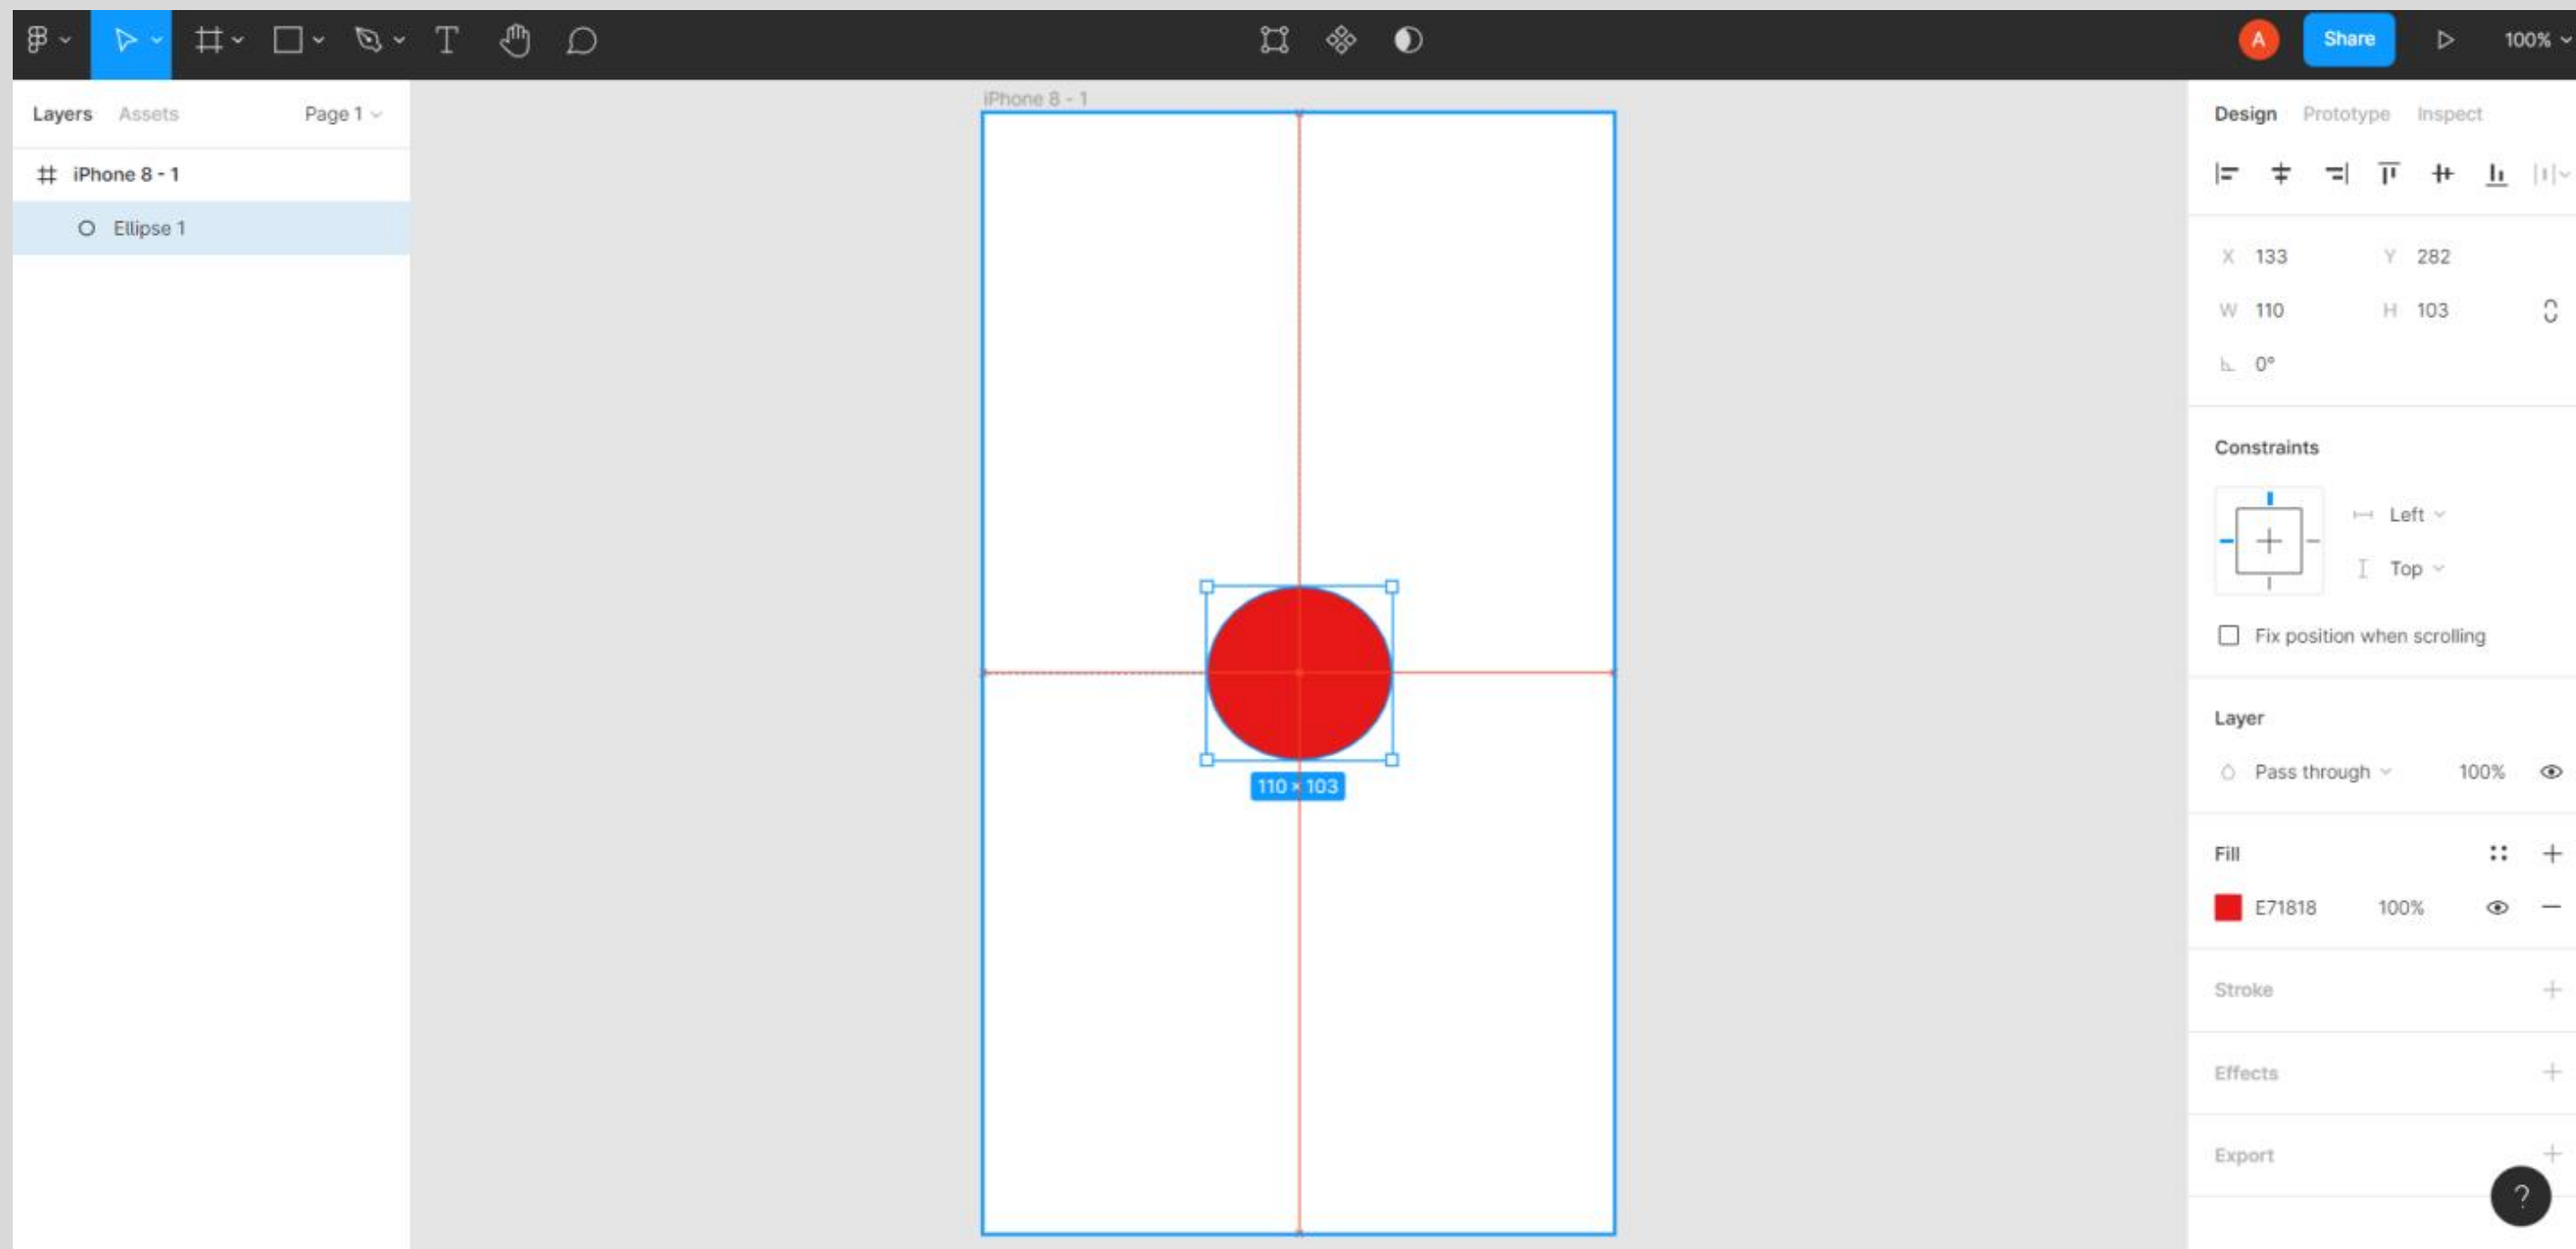

Auto-layout

Se si decide di scrivere del testo più lungo, grazie all' auto-layout, l'elemento sarà sempre al centro e, man mano che si scrive il testo, aumenterà anche la grandezza del pulsante.

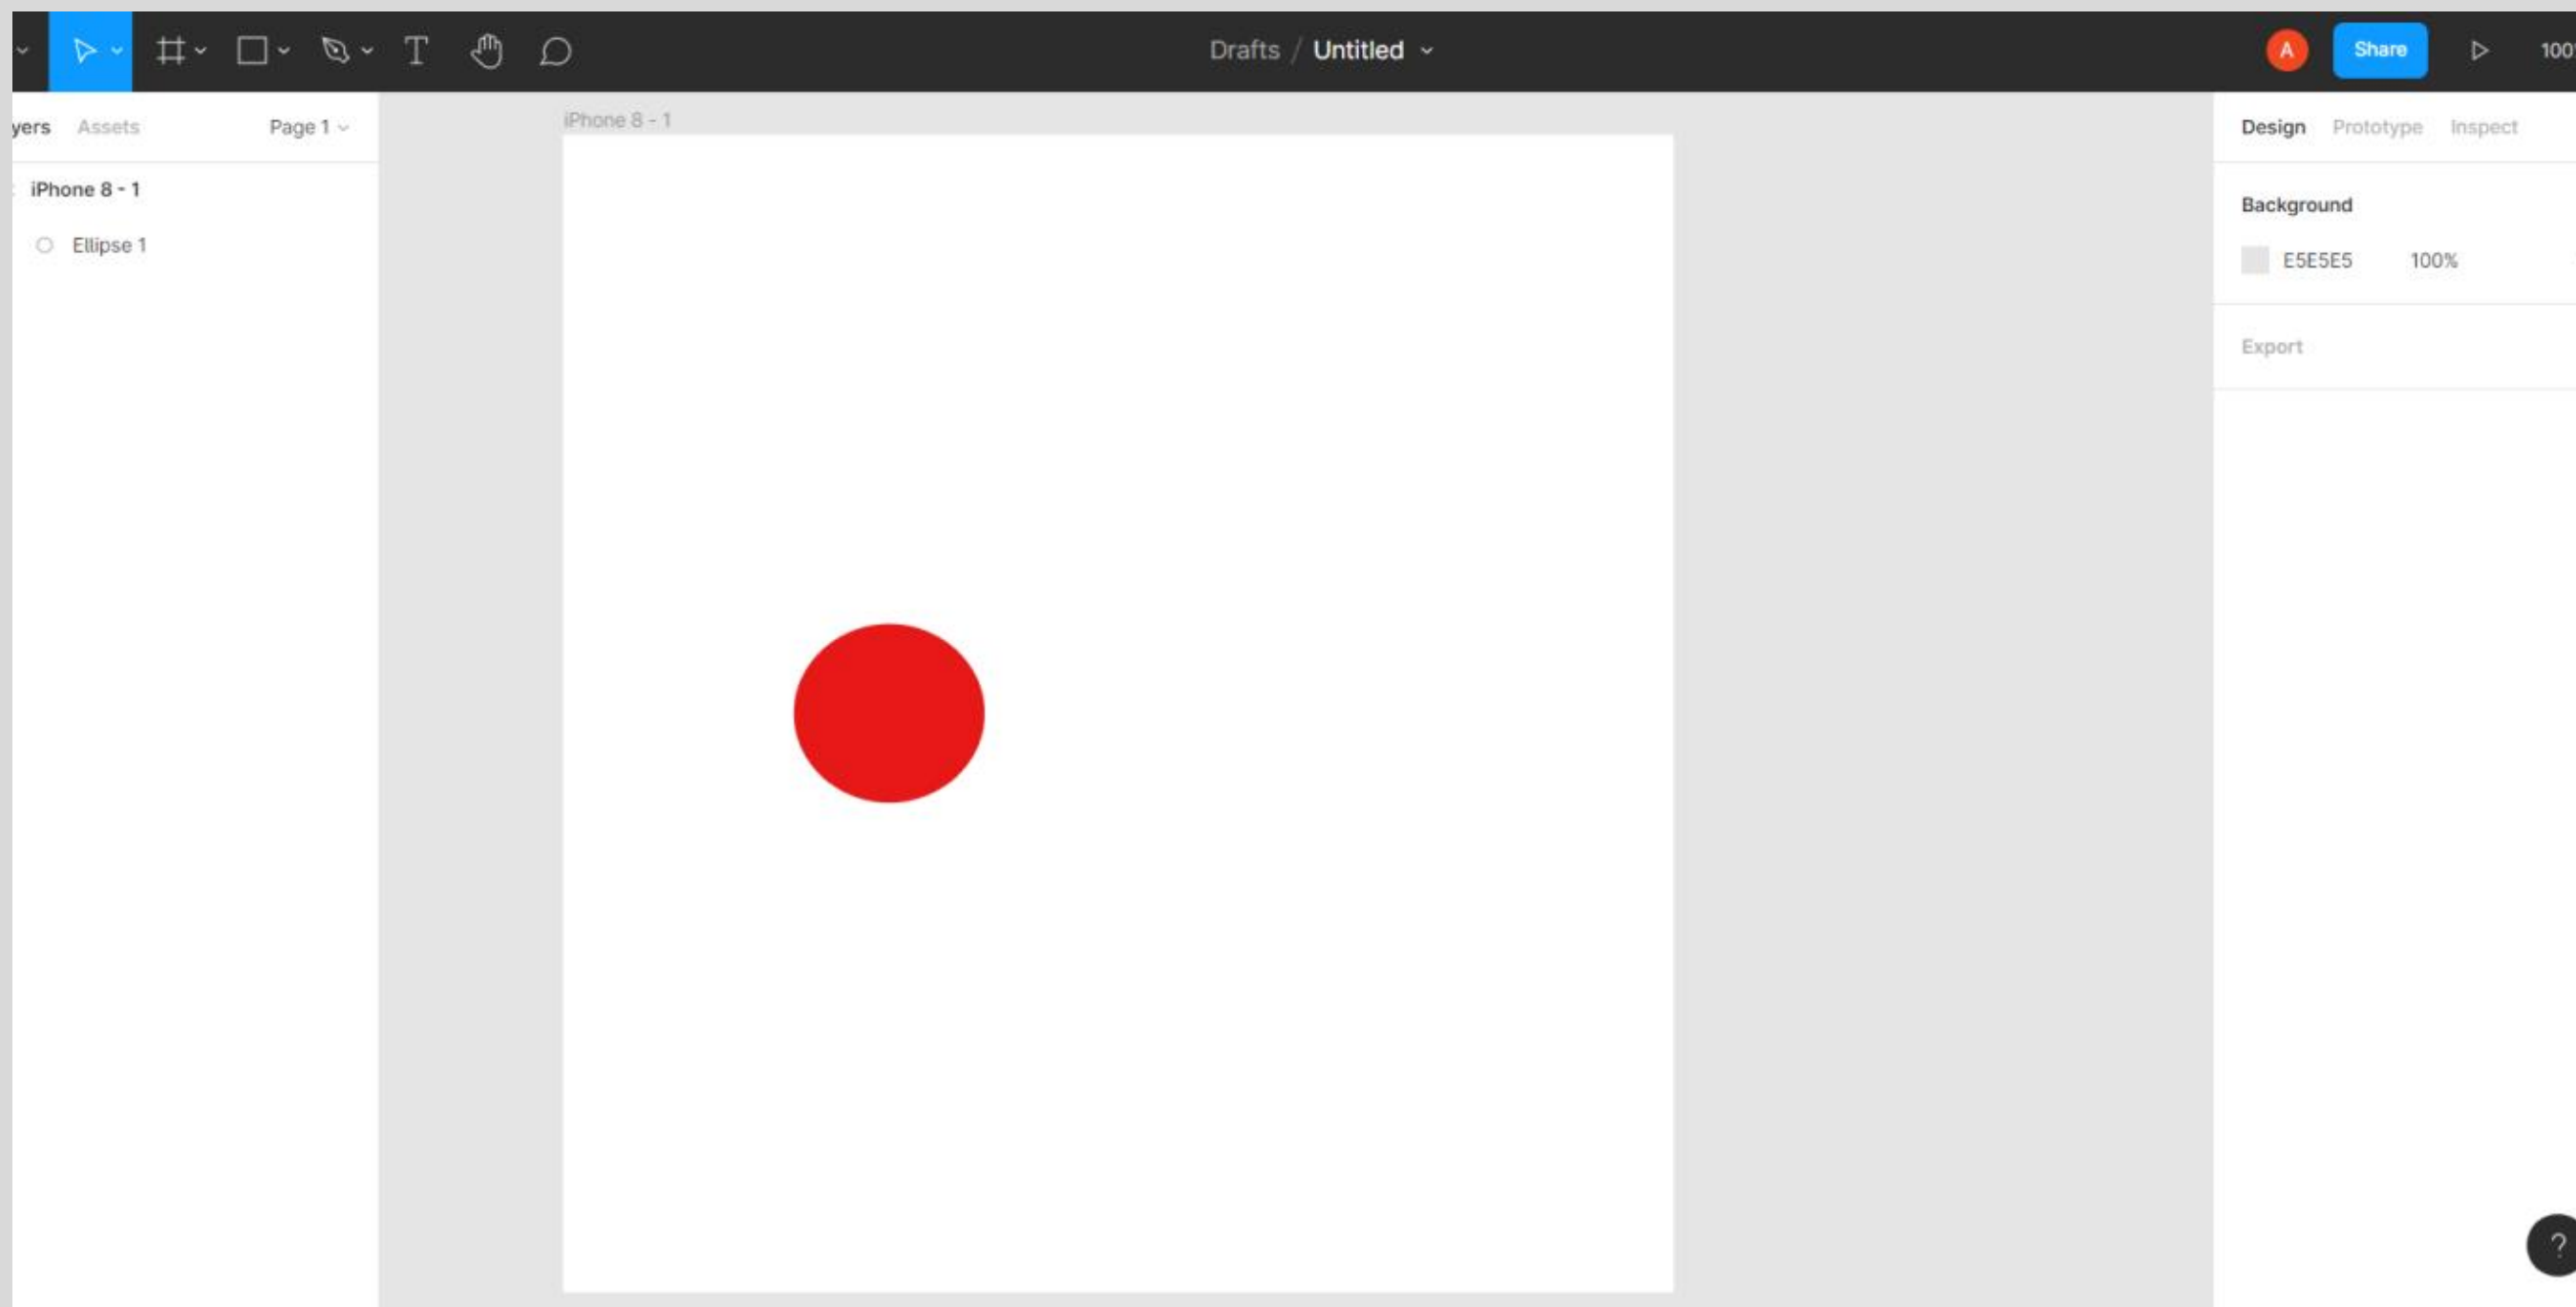

Constraints

Supponiamo di avere un cerchio ed un frame. Posizioniamo la figura al centro del frame.

Constraints

Se allarghiamo il frame, la figura non resta al centro del frame, ma allineata a sinistra.

Constraints

Se invece clicchiamo sull'oggetto e aggiungiamo qualche informazione ai constraints, come, ad esempio, impostiamo che vogliamo l'oggetto ancorato al centro sia verticale che orizzontale, questo sarà sempre al centro del frame, qualunque sia la sua dimensione. Vale lo stesso se lo vogliamo fisso a sinistra, a destra, in alto a destra e così via.

Build your own team library

Don't reinvent the wheel with every design. Team Libraries let you share assets and components across files, with everyone on your team.

Figma for Education

- ▶ Dopo che **tutti** i membri del team hanno effettuato la registrazione a Figma con il piano Education, un membro del team deve inviare un'email a: acantone@unisa.it, inserendo in cc gli altri membri.

Figma for Education

The image shows the Figma website's homepage with a sign-up modal open. The modal is titled "Tell us about yourself" and contains a form with the following fields and options:

- Name: Simone
- Role: Other (dropdown menu)
- Purpose: For teaching or taking a class (dropdown menu)
- Agreement: ☐ I agree to join Figma's mailing list
- Button: Create account

The background of the website shows the Figma logo, navigation links (Products, Enterprise, Pricing, Community, Company), language selection (English), and login/signup options. The main content area features the text "Figma is free for students and educators" and a description of Figma's tools. A diagram of a user interface is visible in the background, with labels like "Emily", "Priyanka", and "Button".
